Project Overview

Balfour Beatty are delighted that works on the Cromer & Mundesley Coastal Management Schemes are progressing with vigour. These essential works are being delivered by Coastal Partnership East on behalf of North Norfolk District Council and are being funded by the Environment Agency with Anglian Water, NNDC and Mundesley Parish Council, contributing to Mundesley only. The Schemes will protect 600 local homes and businesses from flooding and coastal erosion.

Overview of project works are as follows:

Cromer Coastal Defence Scheme:

These works involve the construction of a new rock armour revetment on the west side of Cromer pier, with 38,000 tonnes of rock placed on the shoreline. It will also include repair and installation works to: groynes; navigation beacons; concreting works, rock revetment and access improvement works.

Mundesley Coastal Defence Scheme:

This will involve 30,000 tonnes of rock being placed on the shoreline to form a rock berm and a temporary rock stockpile. The team will also reinforce the existing coastal protection infrastructure and refurbish the groynes and navigation beacons. Work will see a rock berm – used to absorb the energy from the waves - in front of the already existing steel frame structure (west beach) and will also involve concrete works.

Who to contact

We are always keen to improve our relations with our neighbours and those affected by our works and would welcome any suggestions you may have. If you have any queries or would like to know more please contact the project team below or on the BB Helpline 0800 121 4444.

Moving Forward

We have started concrete works in Mundesley and Sheet piling and modular welfare cabin install is now progressing in Cromer.

Works plans:

Person Power:

We aim to utilise local labour wherever possible, both through our own workforce and through our supply chain.

Milestone progress

- May 2024**
Cromer welfare cabins built and habitable. Sheet piling works will be ongoing at Cromer by flint wall. Mundesley Concrete works continue.
- June 2024**
Arrival of rock armour from Scotland via Ships.
- July 2024**
Continued deliveries of rock armour from Scotland via Ships.
- October 2024**
Completion of the rock armour deliveries and the rock placement along the beaches continues through to November.
- December 2024**
Continue with concrete works along the Mundesley beach front and completion of Cromer works are achieved.
- July 2025**
Site demobilisation

Site operating hours:

Monday to Friday 0700-1800

June 2024: Continuous rock deliveries for 3 days, followed by break, then repeat

The sites main operating hours above are set to confine construction works to these hours. There are however times that we may need to work outside these times if it becomes absolutely essential to complete a specific activity. These will of course be agreed with North Norfolk District Council. Activities will be restricted so as not to disrupt the local community.
