1. Introduction

- 1.1 The Statement of Accounts for 2022/23 on the following pages sets out the Council's income and expenditure for the year, and its financial position at 31 March 2023. The format and content of the financial statements is prescribed by the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom 2022/23, which in turn is underpinned by International Financial Reporting Standards. It comprises core and supplementary statements.
- 1.2 This narrative statement aims to provide the reader with information about the Council, its main objectives, strategies and the principle risks it faces and to provide a commentary on how the Council has used its resources to the desired outcomes. It also helps to explain and highlight the linkages between the information contained within the narrative statement itself and the information presented within the financial statements. The accounting policies applied in production of the accounts can be found on Pages 21 – 27.

2. Statements included within the Accounts

2.1 The accounts consist of the following main statements:

- **Expenditure and Funding Analysis** – The Expenditure and Funding Analysis (EFA) is a note to the financial statements. However, it is positioned with the core statements as it provides a link from the portfolio-based analysis of the revenue outturn presented in the Narrative Report to the analysis within the Net Cost of Services in the Comprehensive Income and Expenditure Statement. The EFA shows how the funding available to the Council for the year (i.e. Government grants, rents, Council Tax and Business Rates) has been used to provide services in comparison with those resources consumed or earned under generally accepted accounting practice (GAAP). The Expenditure and Funding analysis also shows how this expenditure is allocated for decision making purposes between the Council's services. Income and expenditure accounted for under GAAP is presented more fully in the Comprehensive Income and Expenditure Statement.
- **Comprehensive Income and Expenditure Statement** – this statement shows the accounting cost of providing services in the year in accordance with generally accepted accounting practices, rather than the amount to be funded from local taxation. The top half of the statement provides an analysis by service area. The bottom half of the statement deals with corporate transactions and funding.
- **Movement in Reserves Statement** – this statement shows the movement in the year on the different reserves held by the Council analysed between:
 - 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and;
 - 'other reserves' which are maintained for accounting purposes.
- **Balance Sheet** – this statement shows the value, as at the balance sheet date, of the assets and liabilities recognised by the Council. It sets out the financial position of the Council at the year-end, showing its balances, resources and long-term indebtedness, the net current

assets employed in its operations, together with summarised information on the fixed assets held. The Balance Sheet is fundamental to the understanding of the Council's year-end financial position.

- **Cash Flow Statement** – this summarises all flows of cash from transactions with third parties for revenue and capital purposes. It shows the changes in cash and cash equivalents during the reporting period and how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.
- **Collection Fund** – As a billing authority the Council is responsible for the billing, collection and distribution of council tax and National Non-Domestic Rates (NNDR). In accordance with the statutory requirement contained in Section 89 of the Local Government Finance Act 1988 (amended by Local Government Finance Act 1992 and the Local Government Finance Act 2012) billing authorities are required to establish and maintain a separate fund for the collection and distribution of amounts due in relation to council tax and NNDR. This statement, known as the Collection Fund, shows the total income collected by the Council from council tax and NNDR and how this has been distributed to Central Government; the major precepting bodies of Norfolk County Council (NCC), the Office of the Police and Crime Commissioner for Norfolk (OPCCN) and North Norfolk District Council (NNDC - which includes the local precepts for Parish and Town Councils). There will be a debtor or creditor position between the billing authority (NNDC), Central Government and the major preceptors (NCC & OPCCN) to be recognised at the end of each year. This is because the amounts paid out of the Collection Fund during the years will not exactly match the cash collected in council tax and NNDR.
- **Notes to the Accounts** – The accounts are supported by various notes to the main statements which provide additional information to that contained in the core statements themselves.

3. Organisational overview and external environment

Our district

- 3.2 North Norfolk District consists of 962 km² of beautiful countryside and 73km of coastline. With a range of active village communities and seven busy market towns comprising of Wells-next-the-Sea, Fakenham, Holt, Sheringham, Cromer, North Walsham and Stalham, North Norfolk has a strong appeal for residents, visitors and businesses alike.

- 3.3 North Norfolk's population is estimated to have grown from 105,600 in 2019 to approximately 109,000 by 2024, with the number of resident households projected to increase from 49,100 to around 51,000 over the same period. A large proportion of residents live in one of the market towns, with the remainder residing in rural village homes. This demographic distribution results in a low population density of around 112 persons per square kilometer, compared to 427 for England as a whole. The district's rural character is defined by its 121 parishes, numerous villages, and consistently low crime rate, making North Norfolk one of the most attractive and safe places to live in the UK.
- 3.4 Residents work predominantly in the accommodation and food sector, retail, manufacturing, and health. The largest numbers of businesses are in the agriculture, forestry and fishing sector followed by retail, construction, accommodation and food services and the professional, scientific and technical sectors.

Corporate Plan and priorities

- 3.5 The Council's Corporate Plan covering 2019 – 2023, along with a supporting delivery plan. The Delivery Plan shows what the Council will do to meet the needs and aspirations of residents and businesses as established within the Corporate Plan.

The Corporate Plan can be located: <https://www.north-norfolk.gov.uk/tasks/performance-and-risk/view-previous-corporate-plan/>.

The 2019 – 2023 Plan sets out the Council's priorities which are:

- Local Homes for Local Need
- Boosting Business Sustainability and Growth
- Customer Focus
- Climate, Coast and the Environment
- Financial Sustainability and Growth
- Quality of Life

4. Governance

- 4.1 The Annual Governance Statement (AGS) is a statutory document which explains the processes and procedures in place to enable the Council to carry out its functions effectively, this is supported by the Council's Local Code of Corporate Governance. There have been no significant changes or issues surrounding governance during the current financial year. A full copy of the Statements, AGS and the Code are available on the Council's website.

5. Risks and opportunities

- 5.1 There is still considerable uncertainty around future years funding forecasts and this position will not improve until the outcome from the Fair Funding Review, which will set new baseline funding allocations and responding to spending pressures and changes in service demand, and the review of the Local Retention of Business Rates, are concluded. The Comprehensive Spending Review, which sets out the expenditure limits over the coming years has been delayed, which have also resulted in single year settlements in recent years. A multi-year settlement has been lobbied for by the sector to provide greater certainty over future funding streams.
- 5.2 Local Authority funding from business rates is open to risks around funding fluctuations due to increases and decreases in the rateable values of non-domestic properties and successful alterations of lists and appeals against the rateable values. The Valuation Office Agency, who hear the appeals, currently have a backlog and are slow to clear outstanding appeals increasing the risk of the Council needing to pay out large refunds.
- 5.3 The Council currently holds £21.3m in reserves, which is a decrease in reserves compared to the prior year, some of these reserve could be made available to support service budgets in the short to medium term. Use of reserves does not represent a sustainable funding mechanism for the longer term as these are one-off resources.
- 5.4 The Council's Corporate Risk Register, which details the significant risks the Council faces (including financial risks), is published on its website.

6. Financial Performance

- 6.1 The Council reports on its performance against its Corporate Objectives quarterly. The report covering the 2022-23 financial year can be found on the Council's website.

Revenue Activity

- 6.2 The following chart provides an overview of the resources available to the Council during the year along with the outturn position compared to the budget. The tables below show how the revenue activity was financed during the year, highlighting that around 13% of the net funding is from external sources, i.e. New Homes Bonus and other non-ringfenced grants including Covid support grants, the balance of 87% comes from council tax and locally retained business rates reflecting the continuing shift from central to local funding. This position is shown net of fees and charges service income and highlighted in the tables below.

Revenue Financing 2022/23

6.3 The financial performance of the Council has been monitored throughout the year by officers and Members with regular reports being presented to Cabinet and Overview and Scrutiny Committee. The summary below provides an overview of the outturn position compared to the updated budget (i.e. updated for virements and approved in-year updates). The overall outturn position for the financial year against budget was reported to Cabinet on 29 June 2023

2022/23 Subjective Analysis	2022/23 Budget	2022/23 Outturn	Variance	
	£000	£000	£000	%
Employee Costs	14,652	16,973	2,321	16
Premises	3,397	4,349	952	28
Transport Related Expenditure	312	300	(13)	(4)
Supplies & Services	12,078	12,348	270	2
Transfer Payments	19,848	19,424	(423)	(2)
Capital Financing Costs	4,134	2,457	(1,677)	(41)
Income	(32,328)	(35,586)	(3,257)	10
Total cost of services	21,697	19,956	(1,741)	(8)

- 6.4 Transfers to and from reserves in the year are made in line with the Council's policy framework for earmarked reserves as approved as part of the annual budget setting process. In addition, some roll forward requests of budget underspends have been recommended for approval as part of the outturn report where there is no annual budget provision in 2023/24.
- 6.5 The 2022/23 outturn report covers the final budget monitoring position for the year and provides a detailed commentary covering the budget variances and the reasons behind some of these, a copy of which can be found on the September Cabinet agenda. The reasons for some of the more significant movements included in the summary above in percentage terms are as follows:
- **Employee Costs** - The majority of the variance in employee costs, totalling £2,151k, is attributed to adjustments in current service costs for the Local Government Pension Scheme. This adjustment represents the difference between the Council's cash contributions to the Pension Fund during the year and the value of pensions accrued during the same period, as determined by the actuary. These additional costs are reversed out under net operating expenditure, resulting in no impact on the revenue outturn position. However, the increase is reflected in long-term liabilities on the Balance Sheet.
 - **Premises** – The overspend in premises included significant amounts including a £315k overspend on the repairs and maintenance on the council's assets (including car parks, public conveniences, and temporary accommodation). An overspend of £273k utility charges, and £188k overspend on insurance premiums as a result of revaluations.
 - **Transport** – Saving in mileage claims and vehicle insurance have been offset by higher fuel costs – resulting in an underspend of £13k.
 - **Supplies and Services** – The overall overspend is attributed to several key factors: a net overspend of £567k on increased Bed and Breakfast costs, partly offset by housing benefits and client contributions, driven by the cost-of-living crisis; a £387k overspend on grants and contributions paid out, such as hardship grants, which are funded by external grants; and a £152k overspend on the leisure contract due to renegotiation, which increased costs for 2022/23 but is expected to reduce costs in future years. The main items offsetting these overspends are savings of £47k on insurances, a £54k reduction in the provision for bad and doubtful debts, and the planned use of reserves totalling £588k, including funds for Environmental Sustainability, Local Plan expenditure, and Community grants.
 - **Transfer Payments** - The underspend relates to the total of amount of housing benefits paid out in 2022/23 being lower than anticipated. However this is offset by a reduction in Subsidy received from the Department for works and Pensions (DWP).
 - **Capital Financing Costs** – The current General Fund position excludes the final capital adjustments; these do not have an impact on the Council's final outturn revenue position.
 - **Income** – The favourable variance of £3,157k is primarily due to various underspends, offset by some areas of overspend. Key contributors include: £2,574k in grant funding received during the year, which has been used to cover additional costs such as staffing, grants, and contributions paid out; £1,104k in other recoverable charges related to benefit overpayment debt and temporary accommodation costs; service income, including Car Parks, contributing £342k; and underspends in Waste and Recycling, totalling £417k. However, a £1,376k variance in Housing Benefit Subsidy was recorded, including a £495k reduction in subsidy payment volume. This was offset by a significant income shortfall of £714k, driven by a cap on the recoverable subsidy for temporary accommodation costs.

Business Rates Retention

- 6.6 The Collection Fund Account can be found, along with the associated notes, on pages 87 to 90.
- 6.7 The Council has been a member in a business rates pool for the 2022/23 financial year alongside other surrounding district councils and Norfolk County Council. Being in the Pool allows growth in the business rates collected in Norfolk to be retained locally, rather than being passed to central government. The retained growth amount is paid over in the form of a levy payment to Norfolk County Council as the lead Council for the Pool.
- 6.8 The Council can retain all the income it receives from renewable energy schemes, provided it granted planning permission for the scheme. When completing the NNDR1 each year the Council must include the amount it anticipates it will receive. Any variation will be carried forward to the following year.
- 6.9 The business rate income is paid into the Collection Fund and then distributed to Central Government, the County Council and NNDC in accordance with the proportionate shares set out in the Scheme. The distribution is based on the NNDR1 return and any variances at outturn will produce a surplus or deficit on the Collection Fund which is then distributed in the following year.

7. Treasury Management and Economic Climate

- 7.1 The amount of surplus cash available for investment during the year was at times higher than the level anticipated in the budget; although the overall rate of interest was lower than budget. This is, in part, due to the Bank of England Monetary Policy Committee (MPC) having reduced the bank base rate due to help sustain the economy during COVID-19, which resulted in reductions in net returns on the Money Market Funds that the Council uses to manage its cash flow.
- 7.2 The current economic climate, which has been significantly affected by the UK economy alongside global events causing further economic uncertainties, has had an impact on the Council's investment income. The resulting investment income achieved in the current year totalled £1,446k, a favourable variance of £297k from the budgeted position. This is largely attributable to the increase in the Bank of England base rate in the period.
- 7.3 The Council had no long-term debt at 31 March 2023. The only debt taken during the year was short-term debt to fund any short-term cash shortfalls.

8. Capital

8.1 Capital expenditure in the year amounted to £6.9m (£9.4m in 2021/22). The areas where expenditure was incurred are shown in the table below. More detail can be found in the 2022/23 outturn report.

Capital Activity Summary 2022/23 Outturn	2022/23 Budget £000	2022/23 Outturn £000	Variance	
			£000	%
Boosting Business Sustainability and Growth	6,326	3,102	(3,224)	(51)
Local Homes for Local Need	4,281	1,778	(2,503)	(58)
Climate, Coast and the Environment	2,545	904	(1,641)	(64)
Quality of Life	1,594	342	(1,252)	(79)
Customer Focus and Financial Sustainability	1,082	783	(299)	(28)
	15,828	6,909	(8,919)	(56)

8.2 The financing of the capital programme is shown in the chart below.

Capital Programme Financing 2022/23

	£000	%
Grants	3,591	52
Other reserves	811	12
Internal Borrowing	(32)	-
Capital Receipts	2,539	36
	6,909	100

9. Reserves and Balances

- 9.1 The Council has a General Fund which is the statutory fund into which all the Council's receipts are required to be paid and out of which all Council's liabilities are to be met, except where there are statutory rules that must be applied. The recommended minimum General Fund balance is currently £2.1m. The balance was £3.2m at 31 March 2022.
- 9.2 The purpose of holding a general reserve is to provide a working balance to help cushion the impact of uneven cash flows to avoid temporary borrowing and to provide a contingency to help cushion the impact of unexpected events or emergencies. Each year alongside approval of the budget Members approve the policy framework for the earmarked reserves and assessment of the optimum level of general reserve. This is informed by a risk assessment of the budget that considers the context within which the budget has been established along with the financial risks facing the Council. This will include factors such as, sensitivity of pay and price inflation and interest rates, levels of savings anticipated, demand led budgets (spend and income), future funding fluctuations and emergencies.
- 9.3 In addition to the general reserve the Council holds earmarked reserves held to meet known or predicted liabilities totaling £24.7m. The reserves also provide a means at the year-end for carrying funds forward to the new financial year to fund ongoing commitments and known liabilities for which no separate revenue budget exists, more detail can be found in Note 9. There are earmarked reserves that have balances, yet the timing of the use of the reserve is yet to be agreed.
- 9.4 Due to the COVID 19 pandemic, the Council was in receipt of grants from the Government to award to local businesses, support the tourism industry and to support COVID outbreak management. Where there is an unspent balance at 31st March, and the Council is acting as Principal in these transactions. As at 31 March 2021 the Council held £28.9m in earmarked reserve with a portion of this balance relating to specific COVID-19 Grants. During 2021/22 there was a net movement in the reserve balances amounting £6.5m being transferred from reserves. This mainly represents the Business rate and grants earmarked reserves. Other significant movements in earmarked reserves include Property Company and Housing reserves. As at 31 March 2022 the Council held £22.4m in earmarked reserves

10. Outlook

10.1 Several risks continue to face Local Authorities in terms of funding, i.e. local retention of business rates and responding to spending pressures and changes in service demand. Some of the more significant and current risks that continue to face the Council are as follows:

- Funding reductions - Further funding reductions and the continued shift from central government support from Revenue Support Grant to local funding from retained business rate income and council tax and the potential impact of the ongoing Fair Funding Review and the Spending Review. Consultation on this has been significantly delayed by Brexit and COVID 19 and poses a significant risk to our future planning;
- New Homes Bonus (NHB) – The Council is due to receive ‘legacy’ payments in respect of the NHB over the next two years but as yet there is still little news regarding what system will replace the current funding mechanism;
- Business rates – The risk of funding fluctuations from business rates continues to be a prevalent feature of the funding for local authorities. The impact of appeals only exacerbates this risk, although this is mitigated at a local level by the earmarked reserve. The implementation of localisation of business rates has also been delayed although further consultation is expected later this year;
- Savings/income – the delivery of savings built into budget projections and income from demand led services i.e. planning, parking fees;
- Economy – The economic environment both nationally and locally continues to present significant challenges and uncertainties, driven by global and domestic factors. These include high inflation, rising interest rates, and lingering economic impacts from global supply chain disruptions and geopolitical instability, particularly the war in Ukraine.
- Inflation – The Consumer Price Index (CPI), remained elevated during the 2022-2023 financial year, peaking at over 10% in late 2022 before gradually moderating in early 2023. Inflation lead to higher operational costs, with rising prices for goods and services essential to delivering public services.
- Investment returns – The rising Bank of England base rates provides a favourable environment for return on investments placed with the Council’s cash reserves providing a modest boost to income. The delivery of investment returns is problematic with the choice of counterparty and period of exposure needing to be weighed in on a daily basis in line with the treasury management strategy and the global markets continue to be impacted due to the economic uncertainties. Sound principles underpinned by professional guidance from treasury management advisors allows for a cautious but not complacent approach to investment returns;
- Housing benefit subsidy – As a significant budget year on year this presents a risk in terms of the accuracy of the claims and subsidy recovered. This is mitigated by an earmarked reserve that the Council maintains;

- Pay – the budget has been updated to reflect the pay review undertaken by the National Joint Council (NJC) along with annual increments.
 - Temporary accommodation – The Council is unable to fully recover from central government the costs relating to the housing benefit subsidy relating to temporary accommodation. The Council is currently acquiring local properties to use directly to help manage the cost of this provision. This cost is increasing year on year and placing a pressure on our budgets. we will continue to monitor the situation, however as a demand led service this is outside of our control.
- 10.2 The Council does however have a number of work streams in place to help address these risks and also has a healthy reserve position to support in the short to medium term.
- 10.3 The disclosures required for the financial year ending 31 March 2023 in relation to the Council's pension scheme are detailed in Note 24 and show a Net Pension Liability of £11.8m as at 31 March 2023 (£49.5m at 31 March 2022). The liabilities show the underlying commitments that the Council has in the long run to pay retirement benefits. However, statutory arrangements for funding the deficit mean that the financial position of the Council remains healthy. At present the deficit on the scheme would be made good by increased contributions over the remaining working life of employees, as assessed by the scheme actuary.

11. Further Information

- 11.1 For further information about these accounts please contact the finance team at accountancy@north-norfolk.gov.uk.

Statement of Responsibilities

The Council's Responsibilities

The Council is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Chief Finance Officer.
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- Approve the Statement of Accounts.

Certification

I confirm that this Statement of Accounts has been approved by myself, Councillor Sarah Bütikofer, Chair of the Governance, Risk and Audit Committee on 9 December 2024. Delegated authority for the Chair of the Committee to sign the Accounts in consultation with the Section 151 Officer was given at its meeting on 3 December 2024.

Signed on Behalf of North Norfolk District Council

The Chief Finance Officer's Responsibilities

The Chief Finance Officer is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC *Code of Practice on Local Authority Accounting in the United Kingdom* (the Code of Practice).

In preparing this Statement of Accounts, the Chief Finance Officer has:

- Selected suitable accounting policies and then applied them consistently.
- Made judgements and estimates that were reasonable and prudent.
- Complied with the Local Authority code.

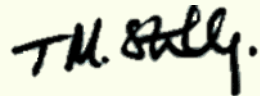

The Chief Finance Officer has also:

- Kept proper accounting records which were up to date.
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate by the Chief Finance Officer

I certify that this Statement of Accounts has been prepared in accordance with proper accounting practices and presents a true and fair view of the financial position of the Council at the reporting date and of its expenditure and income for the year ended 31 March 2023.

Dated: 25 October 2024

Tina Stankley CPFA, Director of Resources

Expenditure and Funding Analysis (EFA)

The Expenditure and Funding Analysis (EFA) is a note to the Financial Statements, however, it is positioned here as it provides a link from the figures reported in the Comprehensive Income and Expenditure Statement (CIES) below, to the Council's management accounts. The EFA shows how annual expenditure is used and funded from resources (Government grants, rents, council tax and business rates) by Local Authorities in comparison with those resources consumed or earned by Authorities in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the Council's departments.

	Net Expenditure Chargeable to the General Fund	Adjustments Between Funding & Accounting Basis	Net Expenditure in the CIES	Net Expenditure Chargeable to the General Fund	Adjustments Between Funding & Accounting Basis	Net Expenditure in the CIES

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT

Comprehensive Income and Expenditure Statement (CIES)

This statement shows the accounting cost in the year of providing services, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

1. Accounting Policies

A. General Principles

The Statement of Accounts summarises the Council's transactions for the 2022/23 financial year and its position at the year-end of 31 March 2023.

The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit (England) Regulations 2015. These practices primarily comprise the Chartered Institute of Public Finance and Accountancy (CIPFA) Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 and the Service Reporting Code of Practice 2022/23 supported by International Financial Reporting Standards (IFRS). The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

A local authority's Statement of Accounts are prepared on a going concern basis, this is, the accounts should be prepared on the assumption that the Council will continue in operational existence for the foreseeable future. This means in particular that the income and expenditure accounts and balance sheet assume no intention to curtail significantly the scale of the operation.

The accounting policies detailed below have been consistently applied within the Financial Statements.

B. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Council transfers the significant risks and rewards of ownership to the purchaser, and it is probable that economic benefits or service potential associated with the transaction will flow to the Council
- Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction, and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Supplies are recorded as expenditure when they are consumed - where there is a gap between the date supplies are received and their consumption; they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including those services provided by employees) are recorded as expenditure when the services are received, rather than when payments are made.
- Interest payable on borrowings and receivable on investments is accounted for on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a receivable or payable for the relevant amount is recorded in the Balance Sheet. Where there is evidence that debts are unlikely to be settled, the balance of receivables is written down and a charge made to revenue for the income that might not be collected.

Where the Council is acting as an agent for another party (e.g. in the collection of NNDR and Council Tax), income and expenditure are recognised only to the extent that commission is receivable by the Council for the agency services rendered or the Council incurs expenses directly on its own behalf in rendering the services.

C. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable on demand. Cash equivalents are highly liquid investments that are readily convertible to known amounts of cash on the Balance Sheet date, and which are subject to an insignificant risk of change in value.

D. Changes in Accounting Policies and Estimates and Errors

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change. Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period. There were no material errors from previous year requiring restatement.

E. Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service;
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off;
- Amortisation of intangible assets attributable to the service.

The Council is not required to raise Council Tax to cover depreciation, revaluation and impairment losses or amortisations.

F. Employee Benefits

Benefits Payable during Employment

Short-term employee benefits (those that fall due wholly within 12 months of the year-end), such as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees, are recognised as an expense in the year in which employees render services to the Council. An accrual is made against services in the Surplus or Deficit on the Provision of Services for the cost of holiday entitlements and other forms of leave earned by employees but not taken before the year-end and which employees can carry forward into the next financial year. The accrual is made at the remuneration rates applicable in the following financial year. Any accrual made is required under statute to be reversed out of the General Fund Balance by a credit to the Accumulating Compensated Absences Adjustment Account in the Movement in Reserves Statement.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy and are charged on an accruals basis to the Non Distributed Costs line in the Comprehensive Income and Expenditure Statement when the Council is demonstrably committed to either terminating the employment of an officer or group of officers or making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for termination benefits related to pensions enhancements and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-employment Benefits

Employees of the Council are members of the Local Government Pensions Scheme (LGPS), administered by Norfolk County Council. The scheme provides defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Council.

The Local Government Scheme is accounted for as a defined benefits scheme in accordance with the Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations 2011, the Local Government Pension Scheme (Administration) Regulations 2009 and the Local Government Pension Scheme (Transitional Provisions) Regulations 2014.

- The liabilities of the Norfolk Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method - i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc., and projections of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate of 2.70% (2.00% in 2021/22). This rate is based on a corporate yield curve based on the constituents of the iBoxx corporate bond index. In line with the adoption of IAS 19 – Employee Benefits, an individual discount rate is calculated for each employer, based on their own weighted average duration category. The weighted average duration is used to identify the appropriate category for each employer as shown in the table below:

Weighted Average Duration	Discount Rate Category
Less than 17 years	Short
Between 17 and 23 years	Medium
More than 23 years	Long

- The change in the net pensions liability is analysed into seven components:
 - Current service cost - The increase in the present value of the defined benefit obligation resulting from employee service in the current period.
 - Past service cost – The increase in the present value of the defined benefit obligation for employee service in prior periods, resulting in the current period from the introduction of, or changes to, post-employment benefits or other long-term employee benefits. Past service cost may either be positive (where benefits are introduced or improved) or negative (where existing benefits are reduced).
 - Interest cost – The increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to payment.
 - Expected return on assets -The expected increase during a period in the value of assets, based on values and long term expected returns as at the start of the period.
 - Gains/losses on settlements and curtailments -the result of actions to relieve the Council of liabilities or events that reduce the expected future service or accrual of benefits of employees - debited/credited to the Surplus/Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non-Distributed Costs;
 - Actuarial gains and losses - changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions - debited to the Pensions Reserve. These are recognised under ‘other comprehensive income’.
 - Contributions paid to the Norfolk pension fund - cash paid as employer’s contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact on the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

G. Events after the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period - the Statement of Accounts is adjusted to reflect such events;
- Those that are indicative of conditions that arose after the reporting period - the Statement of Accounts are not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes to the accounts of the nature of the events and their estimated financial effect.

H. Exceptional Items

When items of income and expense are material, their nature and amount is disclosed, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Council's financial performance.

I. Financial Instruments

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Non-exchange transactions, such as those relating to taxes, benefits and Government grants, do not give rise to financial instruments.

J. Financial Liabilities

A financial liability is an obligation to transfer economic benefits controlled by the Council and can be represented by a contractual obligation to deliver cash or financial assets or an obligation to exchange financial assets and liabilities with another entity which is potentially unfavourable to the Council.

The majority of the Council's financial liabilities held during the year are measured at amortised cost and comprised:

- Short term loans from other local authorities
- Overdrafts with Barclays bank
- Lease payables
- Trade payables for goods and services received

K. Financial Assets

A financial asset is a right to future economic benefits controlled by the Council that is represented by cash, equity instruments or a contractual right to receive cash or other financial assets or a right to exchange financial assets and liabilities with another entity that is potentially favourable to the Council. The financial assets held by the Council during the year are accounted for under the following three classifications:

Amortised Cost comprising:

- Cash in hand
- Bank current and deposit accounts with Barclays bank
- Loans to other local authorities
- Loans to small companies and housing associations
- Covered bonds issued by banks and building societies
- Trade receivables for goods and services provided

Fair value through profit and loss (all other financial assets) comprising:

- Money market funds
- Pooled bond, equity and property and multi-asset funds

Where loans are advanced at below market rates, they are classed as 'Soft Loans' and specific accounting requirements apply to them. The Council has a very small number of car loans to employees and other loans to voluntary organisations to encourage leisure activities and economic development. The impact of accounting fully for the losses on these loans is considered to be immaterial and the special accounting requirements have not been applied.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

L. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments; and
- the grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Account until conditions attached to the grant or contributions have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset received in the form of the grant or contribution are required to be consumed by the recipient as specified or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as payables. When conditions are satisfied, the grant or contribution is credited to the relevant service line (for attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ring-fenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Account. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Account are transferred to the Capital Adjustment Account once they have been applied.

Where general (non-ring fenced) revenue grants are allocated to the Council by Central Government these are credited to Taxation and Non-Specific Grant Income in the Comprehensive Income and Expenditure Statement.

M. Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council for more than one financial year.

Intangible assets are initially measured at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service lines in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired - any losses recognised are posted to the relevant service lines in the Comprehensive Income and Expenditure Statement. Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and for any sale with proceeds greater than £10,000 the Capital Receipts Reserve.

N. Inventory and Work in Progress

Inventories including bar stock are included in the Balance Sheet at the lower of cost and net realisable value. Cost is determined using the first-in, first-out (FIFO) method.

O. Investment Properties

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's length. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund

Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and for any sale proceeds greater than £10,000 the Capital Receipts Reserve.

P. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases. Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification. Arrangements that do not have the legal status of a lease but convey a right to use an asset return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Council as Lessee

Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the years in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment - applied to write down the lease liability, and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement)

Property Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life.

The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual provision is made from revenue towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore replaced by revenue provision in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease; even if this does not match the pattern of payments, e.g. there is a rent-free period at the commencement of the lease.

Q. Overheads and Support Services

The costs of overheads and support services are charged to service segments in accordance with the Council's arrangements for accountability and financial performance.

R. Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services for rental to others or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

A de-minimis level of £10,000 is applied to expenditure on assets.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The cost of assets acquired other than by purchase is deemed to be its fair value unless the acquisition will not increase the cash flows of the Council. In the latter case, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are then carried in the Balance Sheet using the following measurement bases:

- Infrastructure, community assets and assets under construction - depreciated historical cost
- Surplus assets – fair value, determined by the measurement of the highest and best use value of the asset
- All other assets - fair value, determined by the amount that would be paid for the asset in its existing use (existing use value - EUV).

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost is used as an estimate of fair value.

Assets included in the Balance Sheet at fair value are re-valued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Valuations are carried out either by an internal or external qualified valuer.

Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a revaluation or impairment loss previously charged to a service.

Where decreases in value are identified, the revaluation loss is accounted for as follows:

- where there is a balance of revaluation gains for the asset in the revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains);
- where there is no balance in the Revaluation Reserve or insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for as follows:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation Reserve or insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Disposals

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale.

Assets Held for Sale are:

- immediately available for sale;
- where the sale is highly probable;
- actively marketed;
- expected to be sold within 12 months.

The asset is re-valued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previously recognised losses. Depreciation is not charged on Assets Held for Sale.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are generally categorised as capital receipts. The balance of receipts is required to be credited to the Capital Receipts Reserve and can then only be used for new capital investment. Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- Buildings - straight-line allocation over the useful life of the property as estimated by the valuer (typically 30 to 100 years);
- Vehicles, plant and equipment - a percentage of the value of each class of assets in the Balance Sheet, as advised by a suitably qualified officer. The maximum useful life is 10 years and the minimum 4 years typically most assets have a useful life of 5 years;
- Infrastructure – straight line allocation over 20 years.
- Community and Surplus assets – The land element of these is not depreciated, any property is depreciated over its useful life.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Componentisation

Where an item of Property, Plant and Equipment asset has major components whose cost is significant (i.e. more than 30%) in relation to the total cost of the item, the components are depreciated separately.

Componentisation is considered for all new valuations, enhancement expenditure and acquisition expenditure carried out on or after 1 April 2011. Where a component is replaced or restored (i.e. enhancement expenditure) the carrying amount of the old component shall be de-recognised before reflecting the enhancement.

The Council recognises the following levels of components:

- Substructure
- Superstructure
- Internal services
- External works

Componentisation is not applicable to land as land is non-depreciable and is considered to have an infinite life.

S. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation but where there is uncertainty around the timing.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties. Where the obligation is expected to be settled within 12 months of the Balance Sheet date the provision is recognised as a Current Liability in the Balance Sheet. Other provisions are recognised as Long Term Liabilities.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year and where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made); the provision is reversed and credited back to the relevant service. Where some or all of the payment required to settle a provision

is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation. Provisions for bad and doubtful debts are maintained in respect of possible losses from non-collection of amounts owing to the Council. This includes council tax, business rates and other income. The provisions are recalculated each year based on age and category of outstanding debt at the end of the financial year, reflecting historical collection patterns, and are included in the Balance Sheet as an adjustment to receivables.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably. Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

T. Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service and included against the Surplus/Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against Council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments and retirement benefits and that do not represent usable resources for the Council - these Unusable Reserves are explained elsewhere within the Accounting Statements.

U. Revenue Expenditure Fund from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has

determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of Council tax.

V. VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

W. Council Tax and Non-domestic Rate Income

Billing authorities in England are required by statute to maintain a separate fund for the collection and distribution of amounts due in respect of Council tax and Non-Domestic Rates (NDR). In its capacity as a Billing Authority, the Council acts as an agent collecting and distributing Council tax and NDR income on behalf of the major preceptors and itself.

From 1 April 2009, the Council has been required to show Council tax income in the Comprehensive Income and Expenditure Account as accrued income.

From 1 April 2013, the Council has been required to show Non-Domestic Rate income in the Comprehensive Income and Expenditure Account as accrued income.

The Council's share of Collection Fund income and expenditure is recognised in the Comprehensive Income and Expenditure Statement in the Taxation and Non-Specific Grant Income and Expenditure section.

X. Fair Value Measurement

The Council measures some of its non - financial assets such as surplus assets and investment properties and some of its financial instruments at fair value at the end of the reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either;

- a) in the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability.

The Council uses a combination of internal and external Valuers to provide valuations for its assets and liabilities in line with the highest and best use definition within the accounting standard. They are therefore using the same assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. This would take into account the markets participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset at its highest and best use.

The Valuers have used valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the Council's financial statements are categorised within the fair value hierarchy as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Council can access at the measurement date,
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly,
- Level 3 – unobservable inputs for the asset or liability.

2. Accounting Standards That Have Been Issued But Not Yet Been Adopted

The Code of Practice on Local Authority Accounting in the UK 2022-23 (“the Code”) has introduced the following changes in accounting policy, which will need to be adopted fully by the Council in the 2023-24 financial statements from 1 April 2023.

The Council is required to disclose information relating to the impact of the accounting changes on the financial statements as a result of the adoption by the Code of a new standard that has been issued but is not yet required to be adopted by the Council. The Council is required to make disclosure of the estimated effect of the new standard in these financial statements.

The following accounting standards have changes next year, but these are either not relevant to the Council or the changes are expected to be minor and are not expected to make any change to the reported information in the accounts and will therefore not have a material effect:

- Amendments to IAS 8 (Definition of Accounting Estimates)
- Amendments to IAS 1 and IFRS Practice Statement 2 (Disclosure of Accounting Policies)
- Amendments to IAS 12 (Deferred Tax related to Assets and Liabilities arising from a Single Transaction) Relates to Group Accounts.
- Amendments to IFRS 3 (Updating a Reference to the Conceptual Framework)

IFRS16 (Leases)

As permitted by the Code, the Council has chosen not to adopt this standard from 1 April 2023 and therefore no disclosures are required in these financial statements.

3. Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in Note 1, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- There is a high degree of uncertainty about future levels of funding for Local Government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.
- Asset Categorisation - The Code classifies assets according to certain criteria. For example investment properties are classified as those assets that are held primarily to generate rental income or for capital appreciation, surplus assets are those assets that are surplus to service needs and do not meet the criteria for investment property or assets held for sale. Assets held for sale is usually restricted to property that is expected to be sold in 12 months.
- NNDR ratings list alterations- are estimates made for the expected loss of income as a result of alterations of ratings lists following the Check, Challenge, Appeal process. This based on currently outstanding checks, challenges and appeals and as well as expected further ones based on historical values.

4. Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet at 31 March 2021 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if actual results differ from assumptions
Property Plant and Equipment	Asset valuation in the current economic climate is subject to significant stress. Impairment reviews by the Council of its asset base have been undertaken in a robust way to reflect the changes in its asset values. Depreciation charges are related to the useful life of the assets and dependant on the level of repairs and maintenance that will be incurred in relation to individual assets.	It is important that the asset values in the Balance Sheet are kept under review. If the useful lives of the assets are reduced depreciation increases and the carrying value of the assets falls. Whilst there is a risk in any valuation exercise changes to useful lives and depreciation do not impact the Council's useable reserves as depreciation charges do not fall on the tax payer.

NOTES TO THE FINANCIAL STATEMENTS

<p>Fair Value Measurements</p>	<p>Where the fair value of financial assets and financial liabilities cannot be measured based on quoted prices in active markets (i.e. Level 1 inputs) their fair value is measured using valuation techniques (e.g. quoted prices for similar assets or liabilities in active markets or, the discounted cash flow). Where possible these inputs are based on observable data, but where this is not possible judgement is required in establishing fair values. This will typically include considerations such as uncertainty and risk. However, changes to the assumptions used could affect the fair value of the Council's assets and liabilities. Where Level 1 inputs are not available, the Council has used relevant experts to identify the most appropriate valuation technique to determine fair value.</p>	<p>The Council uses the discounted cash flow (DCF), and 'market approach' (as defined in paragraphs B5 to B7 of IFRS 13) to measure the fair value of its assets.</p> <p>The inputs to this latter technique constitute Level 2 inputs, which are observable for the asset either directly or indirectly. If there were to be significant unobservable inputs, this could result in a significantly lower or higher fair value measurement for the investment properties and financial assets.</p>
<p>Pensions Liability</p>	<p>Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. Actuaries are employed by the pension schemes administrators to provide expert advice about the assumptions to be applied.</p>	<p>The effects on the net pension liability of changes in individual assumptions can be measured, for example a 0.1% decrease in the real discount rate assumption would result in an increase of 2% in the pension liability which is approximately £1,720k.</p> <ul style="list-style-type: none"> (i) A one year increase in member life expectancy would result in an increase of approximately 4% in the pension liability. In practice, the actual cost will depend on the structure of the revised assumption (i.e. if improvements to survival rates predominantly apply at younger or older ages). (ii) If salaries were to increase by 0.1% more than anticipated, the pension liability would increase by approximately £197k. (iii) If pensions payable were to increase by 0.1% more than anticipated, the pension liability would increase by 1%, approximating to £1,549k

5. Events After The Balance Sheet Date

The Statement of Accounts was authorised for issue by the Director of Resources on 21 October 2024. Events taking place after the accounts are authorised for issue are not reflected in the Financial Statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2023, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information. There were no subsequent events that required an adjustment to the financial statements and the notes.

6. Note to the Expenditure and Funding Analysis

Adjustments between Funding and Accounting Basis 2022/23.

	Adjustments for Capital Purposes	Net Change for the Pensions Adjustments	Other Differences	Total Adjustments	Adjustments for Capital Purposes	Net Change for the Pensions Adjustments	Other Differences	Total Adjustments

Adjustments for capital purposes – this column adds in depreciation and impairment and revaluation gains and losses in the services line, and for;

Other operating expenditure – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for these assets;

Financing & Investment Income & Expenditure – the statutory charges for capital financing and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices;

Taxation and non-specific grant income and expenditure – capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The Taxation and Non-Specific Grant Income and Expenditure line is credited with the capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

Net Change in Pension Adjustments – this column is the net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income. For services this represents the removal of the employer's pension contributions made by the Council as allowed by statute and the replacement with current service costs and past service costs. For Financing and investment income and expenditure – the net interest on the defined benefit liability is charged to the CIES.

Other Differences – this column relates to other differences between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute. Also included within this column is the charge under Taxation and non-specific grant income and expenditure represents the difference between what is chargeable under statutory regulations for Council Tax and NNDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the code. This timing difference as any difference will be brought forward in future surpluses and deficits on the Collection Fund.

7. Expenditure and Income Analysed by Nature

Total Adjustments	(5,431)	(317)	-	5,748	1,341	(929)	-	(412)

General Fund Balance - The General Fund is the statutory fund into which all the receipts of a Council are required to be paid and out of which all liabilities of the Council are to be met, except to the extent that statutory rules might provide otherwise.

Capital Receipts Reserve – The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes.

Capital Grants Unapplied – The Capital Grants Unapplied Account holds grants and contributions received towards capital projects from which the Council has met the conditions that would otherwise require repayment of the monies, but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

Total transfers out during the year							
Total transfers in during the year							
Net Movement in Earmarked Reserves							

The purpose of each earmarked reserves is explained below:

Asset Management - To support improvements to our existing assets as identified through the Asset Management Plan.

Benefits - To mitigate any claw back by the Department of Works and Pensions following final audited subsidy determination.

Building Control – Ring- fenced to cover any future deficits on the building control service.

Business Rates Retention – To be used to mitigate the impact of final claims and appeals in relation to business rates retention scheme.

Capital Projects Reserve - To provide funding for capital projects. This includes the VAT shelter income that is received in the year and not yet spent on projects.

Coast Protection - To support the on-going coast protection maintenance programme.

Common Training - To deliver the corporate training and development programme.

Communities – To support projects that communities identify where they will make a difference to the economic and social wellbeing of the area. This is funded from the return of the second homes funding from Norfolk County Council.

Economic Development and Regeneration: Service underspends rolled forward that relate to one off projects or expenditure not budgeted for in future years, including learning for everyone.

Election Reserve - Established to meet costs associated with district council elections, to smooth the impact between financial years.

Environmental Health - Earmarking of underspends and additional income to meet Environmental Health.

Grants – Earmarking of grants received in the year for which expenditure is yet to be incurred, for example due to the timing of the receipt.

Grassed Area Deposits - To finance ongoing commitments in relation to grounds maintenance contracts.

Housing – Includes Community Housing Fund grant received from the Ministry of Housing, Communities and Local Government (MHCLG) This is to support community led housing schemes and assisting in the delivery of affordable housing within the area.

Land Charges – To mitigate the impact of potential income reductions for the service.

Legal – Includes funding for Compulsory Purchase Order (CPO) work and other one-off work.

Local Strategic Partnership – Ring fenced from the former Local Strategic Partnership, earmarked for ongoing liabilities.

LSVT Reserve – To meet the cost of successful warranty claims not covered by bonds and insurance following the housing stock transfer.

New Homes Bonus (NHB) – Established for supporting communities with future growth and development and Plan review.

Organisational Development - To provide funding for organisation development to create capacity within the organisation, including the support of apprenticeship and intern programmes.

Pathfinder - To help coastal communities adapt to coastal changes. The balance represents grant funding that has been received that has been fully allocated to projects to deliver the Pathfinder objectives but has not yet been spent.

Planning – Additional Planning Income earmarked for Planning Initiatives including Plan Business Process Review.

Property Investment Fund – To provide funding for the acquisition and development of new land and property assets

Property Company – To fund potential housing development and property related schemes

Restructuring and Invest to Save - To be used for restructuring costs including one-off redundancy and pension strain costs and invest to save projects that will deliver efficiency savings.

Sports Hall Equipment and Sports Facilities - To support renewals for sports hall equipment. Transfers in the year represents over or under achievement of income target.

10. Comprehensive Income and Expenditure Statement – Other Operating Expenditure

	2022/23	2021/22
	£000	£000
Parish Council Precepts	2,725	2,574
Gain on the Disposal of Non-Current Assets	(2,215)	(1,418)
Total	510	1,156

	2022/23	2021/22
	£000	£000
Interest Expense	166	16
Pension Interest Cost and Expected Return on Pensions Assets	1,254	1,180
Fair Value Changes of Pooled Funds	-	-
Interest Income	(1,448)	(1,045)
Fair Value changes of Investment Properties	-	-
Total	(28)	151

12. Comprehensive Income and Expenditure Statement – Taxation and Non-Specific Grant Income

	2022/23	2021/22
	£000	£000
Council Tax Income	(9,389)	(8,944)
Non-Domestic Rates	(6,725)	(5,532)
Revenue Support Grant	-	-
Other Non-Ringfenced Government Grant	(1,908)	(2,533)
Capital Grant and contributions	(2,159)	(2,624)
Total	(20,181)	(19,633)

13. Balance Sheet – Usable Reserves

Movements in the Council's usable reserves are detailed in the Movement in Reserves Statement and Note 8 and Note 9.

14. Balance Sheet – Unusable Reserves

	2022/23 £000	2021/22 £000
Revaluation Reserve	27,763	18,189
Pooled Fund Adjustment Account	123	2,717
Capital Adjustment Account	37,564	41,133
Financial Instruments Adjustment Account	-	-
Pensions Reserve	(11,827)	(45,548)
Collection Fund Adjustment Account	(3,348)	(4,693)
Accumulated Compensated Absences Adjustment Account	(354)	(221)
Total	(49,921)	11,577

14(a) Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment (and Intangible Assets). The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	2022/23 £000	2021/22 £000
Balance at 1 April	(18,188)	(17,727)
Upward revaluation of assets	(11,865)	(1,684)
Downward revaluation of assets and impairments losses not charged to the Surplus/Deficit on Provision of Services	2,121	518
Difference between Fair Value Depreciation and Historical Cost Depreciation	170	705
Balance at 31 March	(27,762)	(18,188)

14(b) Pooled Fund Adjustment Account

The Pooled Fund Adjustment Account contains the gains made by the Council arising from increases in the value of its investments in pooled funds and are therefore accounted for under IFRS 9 at fair value through profit and loss. A statutory override currently applies enabling gains or losses to be transferred to this unusable reserve, thereby protecting the Council Tax payer from changes in fair value on these investments. The balance is reduced when investments with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- disposed of and the gains are realised

	2022/23 £000	2021/22 £000
Balance at 1 April	2,717	1,260
Upward/(Downward) Revaluation of Investments Charged to the surplus/Deficit on the Provision of Services.	(2,593)	1,458
Balance at 31 March	124	2,717

14(c) Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 8 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

	2022/23 £000	2021/22 £000
Balance at 1 April	41,132	39,342

Balance at 31 March	37,564	41,132

The revenue expenditure funded from capital under statute (REFCUS) grant funding has been applied to the REFCUS line of the CAA note above. Please refer to Note 31 - Capital Expenditure and Capital Financing for the gross balances.

14(d) Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the

Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The deficit on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2022/23 £000	2021/22 £000
Balance at 1 April	(49,459)	(57,990)
Actuarial gains/(losses) on pensions assets and liabilities	40,856	11,839

Employer's pension contributions and direct payment to pensioners payable in the year	2,935	2,690
Balance at 31 March	(11,827)	(49,459)

14(e) Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of Council Tax and Business Rate income in the Comprehensive Income and Expenditure Statement as it falls due from Council Tax and Business Rate payers, compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

	2022/23 £000	2021/22 £000
Balance at 1 April	(4,693)	(5,579)
Amount by which Council Tax and Business Rate Income credited to the CIES is different from Council Tax and Business Rate income calculated for the year in accordance with statutory requirements	1,345	886
Balance at 31 March	(2,978)	(4,693)

14(f) Accumulating Compensated Absences Adjustment Account

The Accumulating Compensated Absences Adjustment Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences, e.g. annual leave, earned but not taken in the year. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

Bank current accounts	(1,436)	(886)
Investments in liquidity money market funds	2,853	10,779
Total cash and cash equivalents	1,420	9,897

19. Trading Operations

The Council currently operates three general produce markets on two car park sites in Sheringham and Cromer. They are provided to meet local demands and to promote tourism. The trading objective is to minimise the deficit relating to the service.

The Council lets a total of 20 industrial units and self-occupies 1 over 4 sites in Catfield, North Walsham and Fakenham. The Catfield and Cornish Way, North Walsham sites offer starter units which were developed jointly with EEDA, to provide opportunities for local business start-ups and developments. 3 larger brand-new units at Hornbeam Road, North Walsham were acquired in December 2020. The trading objective is to minimise the deficit relating to the service.

Trading operations are incorporated into the CIES. Some are an integral part of one of the Council's services to the public (e.g. refuse collection), whilst others are support services to the Council's services to the public. The expenditure of these operations is allocated or recharged to the relevant service area within the CIES Cost of Services.

The surplus is due to higher income from both market traders and rental income at the industrial units.

	2022/23	2021/22
	£000	£000
<u>General Produce Markets</u>		
Turnover	(36)	(47)

20. External Audit Costs

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and to non-audit services provided by the Council's external auditors:

	2022/23 £000	2021/22 £000
Fees payable for external audit services carried out by the appointed auditor for the year	44	44
Fees payable for the certification of grant claims and returns for the year	21	21
Additional fees in respect of the prior year audit	-	21
Total	65	86

21. Members Allowances

The Council paid the following amounts to Members of the Council during the year. Full details can be obtained by writing to:

Information Services, Holt Road, Cromer, Norfolk, NR27 9EN.

	2022/23 £	2021/22 £
Allowances	339,585	315,785
Expenses	9,389	6,845
Total	348,974	322,630

22. Officers' Remuneration

The following table sets out the remuneration paid to the Council's senior officers. A senior officer is defined as being a statutory chief officer as defined in the Local Government and Housing Act (LGHA) 1989 section 2(6); a non-statutory Chief officer as defined in the LGHA 1989 section 2(7); or someone with responsibility for the management of the Council, being able to direct or control its major activities, whether solely or collectively.

For the period 1 April 2021 to 31 March 2023:

<u>Job Title</u>	Year	Salary, Fees and Allowance	Bonuses	Expenses Allowances	Compensation for loss of office	Sub- Total	Pension Contribution	Total
		£	£	£	£	£	£	£
<u>1 April 2022 to 31 March 2023</u>								
Chief Executive	2022/23	114,566	-	963	-	115,529	16,333	131,862
Director for Communities	2022/23	91,684	-	963	-	92,647	11,931	104,578
Director for Resources & Section 151 Officer	2022/23	84,693	-	963	-	85,656	12,284	97,940
Director for Place & Climate Change	2022/23	91,684	-	963	-	92,647	7,662	100,309
Monitoring Officer	2022/23	57,056	-	963	-	58,019	8,459	66,478
<u>1 April 2021 to 31 March 2022</u>								
Chief Executive	2021/22	112,641	-	963	-	113,604	16,333	129,937

Monitoring Officer	2021/22	58,341	-	963	-	59,304	8,459	67,763

The number of employees not falling into the category of senior officers shown above whose remuneration, excluding pension contributions was £50,000 or more in bands of £5,000 were:

Remuneration Band	2022/23	2021/22
	Number of Employees	Number of Employees
£50,000 - £54,499	11	7
£55,000 - £59,999	6	6
£60,000 - £64,499	3	1
£65,000 - £69,999	1	2

23. Exit Packages

The number of exit packages agreed with the total cost per band and total cost of the compulsory and other are set out in the table below.

Bandings	2022/23				2021/22			
	Compulsory Redundancies Number of Employees	Other Departures Number of Employees	Total Employees	Total Amount	Compulsory Redundancies Number of Employees	Other Departures Number of Employees	Total Employees	Total Amount
£0 - £20,000	-	1	1	19,073	-	2	2	9,660
£20,001 - £40,000	-	2	2	52,546	-	-	-	-
£40,001 - £60,000	1	-	1	40,952	-	-	-	-
£60,001 - £80,000	-	1	1	63,588	-	-	-	-
£80,000 - £100,000	-	-	-	-	-	-	-	-
	1	4	5	176,160	-	2	2	9,660

24. Defined Benefit Pension Schemes

Participation in pension schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments and this needs to be disclosed at the time that employees earn their future entitlement.

The Council participates in two post-employment schemes:

- The Local Government Pension Scheme, administered locally by Norfolk County Council - this was a funded defined benefit final salary scheme up to 31/03/2014 then replaced with a Career Average Revalued Earnings (CARE) scheme from the 01/04/2014, The Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.
- Arrangements for the award of discretionary post-retirement benefits upon early retirement - this is an unfunded defined benefit final arrangement; under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet the pension's liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due.

Transactions relating to post-employment benefits

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against Council Tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	Local Government Pension Scheme 2022/23 £000	Local Government Pension Scheme 2021/22 £000
Comprehensive Income and Expenditure Statement		
<u>Cost of Services</u>		
Current service cost	4,754	4,818

The expected return on scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at the Balance Sheet date. Expected returns on equity investments reflect long-term real rates of return experienced in the respective markets.

The liabilities show the underlying commitments that the Council has in the long run to pay post-employment (retirement) benefits. The total net liability of £11.8m has a substantial impact on the net worth of the Council as recorded in the Balance Sheet. However, statutory arrangements for funding the deficit mean that the financial position of the Council remains healthy:

- the deficit on the local government scheme will be made good by increased contributions over the remaining working life of employees (i.e. before payments fall due), as assessed by the scheme actuary.
- finance is only required to be raised to cover discretionary benefits when the pensions are actually paid.

The total contributions expected to be made to the Local Government Pension Scheme by the Council in the year to 31 March 2023 is £2.6m.

Basis for estimating assets and liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. Both the Local Government Pension Scheme and Discretionary Benefits liabilities have been assessed by Hymans Robertson LLP, an independent firm of actuaries, estimates for the County Council Fund being based on the latest full valuation of the scheme as at 1 April 2022. In relation to the Commutation Adjustment, an allowance is included for future retirements to elect to take 50% of the maximum additional tax-free cash up to HMRC limits for pre-April 2008 service and 75% of the maximum tax-free cash for post-April 2008 service.

The principal assumptions used by the actuary have been:

Mortality Assumptions	Local Government Pension Scheme 2022/23	Local Government Pension Scheme 2021/22
<u>Longevity at 65 for Current Pensioners:</u>		
Men	22.3	21.7
Women	24.7	24.1
<u>Longevity at 65 for Future Pensioners:</u>		
Men	23.0	22.9
Women	26.2	26.0
Pension Increase Rate (CPI)	2.95%	3.20%
Rate of Increase in Salaries	3.65%	3.90%
Expected Return on Assets	3.65%	3.90%
Rate of Discounting Scheme Liabilities	4.75%	2.70%

History of experience gains and losses

The actuarial gains identified as movements on the Pensions Reserve in 2022/23 can be analysed into the following categories, measured as a percentage of assets or liabilities at 31 March 2023.

	2023	2022	2021	2020	2019
	%	%	%	%	%
Difference between the expected and actual return on assets	(3.9)	6.1	17.8	(7.4)	2.7
Experience gains and losses on liabilities	0.1	3.0	(0.7)	(2.0)	0.2

25. Related Parties

This disclosure note has been prepared using the Council's Register of Members' Declarations of interest in addition to a specific declaration obtained in respect of related party transactions from Members and Chief Officers.

The Council is required to disclose material transactions with related parties - bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Central Government

Central Government has effective control over the general operations of the Council - it is responsible for providing the statutory framework, within which the Council operates, provides most of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. Council tax bills, housing benefits). Grants received from Government departments are set out in the expenditure and income analysed by nature in Note 7. Grant receipts outstanding at 31 March 2023 are shown in Note 38.

Members & Officers

Members of the Authority have direct control over the Authority's financial and operating policies. The total of members' allowances paid in 2022/23 is shown in Note 21. During 2022/23, works and services to the value of £572,113 were commissioned from companies in which twelve members had an interest. Contracts were entered into in full compliance with the Authority's standing orders.

The most significant total values for general expenditure were:

- £328,021 linked to the Broads Internal Drainage Board in which one member had an interest.
- £110,805 linked to the Norfolk Rivers Internal Drainage Board in which one member had an interest.

In addition, the Council paid grants totalling £90,896 to voluntary organisations in which three members had declared an interest. In all instances, the grants were made with proper consideration of declarations of interest. There were no material expenditure transactions involving Chief Officers.

The most significant total values for grant expenditure were:

- £40,000 to the North Norfolk Community Transport Association.
- £37,125 to the North Walsham Phoenix Group.

Income totalling £34,750 was received from entities in which thirteen members had an interest. There were no material expenditure transactions involving Chief Officers. There were no significant total values for income.

The relevant persons linked to the above transactions did not take part in any discussion or decision relating to the expenditure/income. Details of all these transactions are recorded in the Register of Members' Interest, open to public inspection at the Council Offices during office hours.

26. Leases

Council as Lessee

Finance Leases

The Council held no Finance leases as at 31 March 2023.

Operating Leases

The Council leases property, land, vehicles and items of equipment, including printing and telephone equipment, as part of a number of operating leases. The future minimum lease payments due under non-cancellable leases in future years are:

	31 March 2023 £000	31 March 2022 £000
Not Later than one year	74	68
Later than one year and not later than five years	245	224
Later than five years	100	139
	419	431

The expenditure charged to the Comprehensive Income and Expenditure Statement during the year in relation to these Leases was:

	31 March 2023 £000	31 March 2022 £000
Minimum Lease Payments	71	78
Contingent Rents	99	81
	170	162

Council as Lessor

Operating Leases

The Council leases out properties under operating leases for the following purposes:

- for the provision of community services, such as sports facilities, tourism services and community centres
- for economic development purposes to provide suitable affordable accommodation for local businesses

The future minimum lease payments receivable under non-cancellable leases in future years are:

	31 March 2023 £000	31 March 2022 £000
Not Later than one year	(228)	(197)
Later than one year and not later than five years	(618)	(432)
Later than five years	(906)	(570)
	<u>(1,751)</u>	<u>(1,199)</u>

The minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews.

27. Investment Properties

The following items of income and expense have been accounted for in the Comprehensive Income and Expenditure Statement:

	31 March 2023 £000	31 March 2022 £000
Rental income from investment property	(132)	(66)
Direct operating expenses from investment property	351	94
Net (gain)/loss	<u>220</u>	<u>28</u>

There are no restrictions on the Council's ability to realise the value inherent in its investment property or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment properties over the year:

	31 March 2023 £000	31 March 2022 £000
Opening Balance	389	842
Additions:		
Purchases	-	-
Disposals	-	(469)
Transfers	709	17
Net gains/losses from fair value adjustments	9	(1)
Closing Balance	1,195	389

The changes identified in the table above are as a result of the properties being revalued in year. No further transfers, additions or disposals have taken place.

Fair Value hierarchy

The Council's investment properties have been value assessed as Level 2 on the fair value hierarchy for valuation purposes (see Accounting Policies for an explanation of the fair value levels).

Valuation Techniques Used to Determine Level 2 Fair Values for Investment Properties

The fair value of investment property has been measured using a market approach, which takes into account either direct or indirect observable inputs for the asset. These inputs took the form of analysed and weighted market evidence such as sales, rentals and yields in respect of comparable properties in the same or similar locations at or around the valuation date.

There has been no change in the valuation techniques used during the year for investment properties.

These assets have been revalued as at 31 March 2023, by Wilks Head & Eve.

28. Intangible Assets

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. Intangible assets would include both purchased licenses and internally generated software – the Council does not currently have any internally generated intangible assets.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Council. The useful lives assigned to all software currently used by the Council is 5 years.

The carrying amount of intangible assets is amortised on a straight-line basis. The movement on intangible asset balances during the year is as follows:

	2022/23			2021/22		
	Internally Generated Assets £000	Other Assets £000	Total £000	Internally Generated Assets £000	Other Assets £000	Total £000
Opening Balance:						
Gross Carrying Amounts	-	2,901	2,091	-	2,618	2,618
Accumulated Amortisation	-	(2,023)	(2,023)	-	(1,782)	(1,782)
Net Carrying amount at start of year		878	878		837	837
Additions:						
Purchases	-	310	310	-	179	179
Derecognition	-	-	-	-	-	-
Transfers	-	-	-	-	3000	300
Amortisation for the period	-	(276)	(276)	-	(241)	(241)
Closing Balance		912	912		1,076	1,076

No significant contracts have been entered into during the financial year 2022/23.

29. Impairment Losses

An impairment review was undertaken for the financial year 2022/23. The review identified that due to the type and use of properties and taking into consideration their location with Norfolk and the Eastern region, that any economic changes during the year would not result in any economic impairment of assets.

30. Property, Plant and Equipment

Movement in 2022/23:	Other Land and Buildings	Vehicles, Plant and Equipment	Infrastructure Assets	Community Assets	Surplus Assets	Assets Under Construction	Total Property Plant and Equipment
Cost or Valuation:	£000	£000	£000	£000	£000	£000	£000

Capital Commitments

The major commitments relate to the following Schemes:

	31 March 2023 £000	31 March 2022 £000
Splash Reprovision	300	9,021
Splash Gym Equipment	-	640
Cromer Coastal Defence Scheme	12,210	-
Mundesley Coastal Defence Scheme	7,618	-
	20,218	9,661

Revaluations

The Council carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued at least every five years. During the intervening years reviews are undertaken to ensure the carrying value of assets are not materially different from their fair values. Impairment reviews are also carried out annually to ensure that the carrying value of assets is not overstated. For the 2021/22 accounts the programme of valuations were carried out by Wilks Head & Eve. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors.

Valuations of vehicles, plant and equipment are based on current prices where there is an active second-hand market or latest list prices adjusted for the asset condition. Further details regarding the valuations are provided within the Statement of Accounting Policies which starts on page 10.

All revaluations have been undertaken as at 31 March 2022.

	Other Land and Buildings £000	Vehicles, Plant and Equipment £000	Infrastructure Assets £000	Community Assets £000	Surplus Assets £000	Assets Under Construction £000	Total Property Plant and Equipment £000
Carried at historical cost	-	5,604	6,329	102	476	3,619	16,130
Valued at fair value as at:							
31 March 2023	49,774	-	-	2,561	-	-	52,335
31 March 2022	2,727	-	-	-	-	-	2,727
31 March 2021	5,504	-	-	-	-	-	5,504
Total	58,005	5,604	6,329	2,663	476	3,619	76,696

31. Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note.

	2022/23	2021/22
	£000	£000
Opening Capital Financing Requirement	15,856	11,939
Capital Investment:		
Property, plant and equipment	5,140	8,094
Intangible assets	310	83
Revenue expenditure funded from capital under statute	1,459	1,035
Long Term Debtor		-
Sources of finance:		
Capital receipts	(2,540)	(999)
Government grants and other contributions	(3,591)	(2,624)
Direct revenue contributions	(810)	(938)
Sums set aside from capital receipts in lieu of minimum revenue provision	-	(381)
Minimum revenue provision	(662)	(353)
Closing Capital Financing Requirements	15,162	15,856
Explanations of movements in the year:		
Increase in underlying need to borrow (unsupported by government financial assistance)	(694)	4,298
Capital receipts applied in lieu of minimum	-	(381)
Increase in Capital Financing Requirement	(694)	3,917

32. Assets Held for Sale

During the financial year, there have been no changes in classification within Assets Held for sale, and none have been sold.

	2022/23	2021/22
	£000	£000
Balance brought forward	922	922
Assets newly classified as Held for Sale:		
Property Plant and Equipment	-	-
Assets sold	(214)	-
Other movements	(10)	-
Balance carried forward	698	922

33. Receivables

Receivables represent the amounts owed to the Council at 31 March 2023 and are analysed below. This figure is split between long term - amounts not falling due within 1 year, and Short Term - amounts falling due within 1 year of the Balance Sheet date.

The Council makes an allowance for outstanding amounts for which recovery of receivables is not anticipated (bad debt provision). Receivables are shown net of the bad debt provision within the Balance Sheet.

	Long Term		Short Term	
	31 March 2023	31 March 2022	31 March 2023	31 March 2022
	£000	£000	£000	£000
Central government bodies	-	-	4,990	5,246
Other local authorities	-	-	1,281	2,092
NHS bodies	-	-	-	-
Other entities and individuals*	2,045	2,326	5,653	4,432
	2,045	2,326	11,924	11,770
Less: Bad debt provision				
General Fund	-	-	(1,003)	(1,091)
Collection Fund	-	-	(242)	(244)
	-	-	(1,245)	(1,335)
	2,045	2,326	10,679	10,435

* Breakdown of Short-Term Receivables - significant entries within the other entities and individual's category are shown below

	2022/23	2021/22
	£000	£000
Council tax and NNDR	903	720
Housing benefit overpayments recoveries	891	865
Right to buy receipts	778	1,100
Loans falling due within 1 year	281	280
VAT invoices awarded	151	153
Capital Contributions not yet received	631	-
Other smaller receivables	2,018	1,314
	5,653	4,432

34. Payables

	2022/23	2021/22
	£000	£000
Central government bodies	(7,135)	(21,376)
Other local authorities	(2,203)	(2,855)
Other entities and individuals	(7,191)	(9,665)
	(16,529)	(31,540)
Less Capital Receipts in advance:		
Central government bodies	3,115	1,343
Other local authorities	-	50
Other entities and individuals	-	959
	3,115	2,324
	(13,414)	(30,328)

Breakdown of significant entries within the other entities and individuals category

	2022/23	2021/22
	£000	£000
Waste and recycling contract payments	(432)	(1,073)
Rent allowance payments to benefit claimants	(1,423)	(1,446)
Council tax and NNDR	(363)	(697)
Planning developer contributions receipts in advance	(2,843)	(2,503)
NNDC employee accumulated absences provision	(354)	(221)
Capital creditors	(159)	(761)
Other smaller payables	(968)	(2,964)
	(6,542)	(9,665)

35. Provisions

The Council has set aside a provision for potential liabilities as a result of alternations to Business Rates rateable values. The total liability is shared in accordance the Business Rate Retention Scheme proportionate shares applicable for the Council, Central Government and Norfolk County Council. The Council has no other outstanding legal cases in progress or other potential liabilities that require provisions to be made.

	1 April 2022	Provisions made in 2022/23	Used in 2022/23	31 March 2023
	£000	£000	£000	£000
NNDC Rating List Changes – Total Collection Fund	(1,680)	-	351	(1,329)
Proportionate percentage	40%	40%	40%	40%
NNDC Share	(672)	-	141	(532)

36. Contingent Liabilities

At 31 March 2023, the Council had the following material contingent liabilities:

- (a) **Housing Stock Transfer** - As part of the legal agreements associated with the transfer of the housing stock to the Victory Housing Trust in 2006/07, the Council provided a number of environmental and non-environmental warranties, guarantees and indemnities to the Trust and its Lenders.

The risks associated with these warranties and indemnities have been assessed following professional advice and where appropriate the Council has, or is making, arrangements to transfer some of the potential risks. Specifically, insurance has been arranged in respect of the environmental warranties.

To the extent that claims have to be met some time in the future beyond those covered by the environmental warranty insurance and the pension bond, the Council discloses a contingent liability.

- (b) **Benefits** - There is a risk of potential claw back from the Department of Works and Pensions following the final audit and sign off the year end subsidy claim. To mitigate the impact of any claw back there is an earmarked reserve for which the balance stood at £727k at 31 March 2023.

37. Contingent Assets

In accordance with IAS 37 Provisions, Contingent Liabilities & Contingent Assets the Council has identified the following contingent assets:

- (a) **Freehold Reversions for Shared Equity Dwellings** – The Council has acquired a share in the freehold reversions for shared equity dwellings. The Council does not benefit from any ongoing rental income in relation to these properties and will not realise the equity share unless the properties owners buy the Council out of the agreement. As the value of these properties to the Council is contingent upon this action the assets have not been recognised within the financial statements.

38. Grant Income

The Council credited the following grants, contributions and donations to the Comprehensive Income and Expenditure accounts in 2022/23.

	2022/23	2021/22
	£000	£000
<u>Credited to Taxation and Non Specific Grant Income:</u>		
Revenue Support Grant	(94)	(90)
Business Rates	(6,725)	(5,609)
Covid Grants	-	(751)
New Homes Bonus	(887)	(723)
Rural Services Delivery Grant	(878)	(779)
Council Tax Family Annexe Discount	(50)	(49)
Capital Grants and Contributions	(2,226)	(2,624)
Council Tax Support New Burdens	-	-
SFC Support grants	-	(142)
Total	(10,860)	(10,767)
<u>Credited to Services:</u>		
DWP - Rent Allowances	-	-
DWP - Admin Subsidy	(75)	(70)
Dept for Business, Energy & Industrial Strategy	(468)	(1,038)
Cabinet Office	8	(126)
Dept. for Environment, Food & Rural Affairs (DEFRA)	(415)	(8)
Dept of Health & Social Care	(55)	(347)
Environment Agency	(3)	(36)
Ministry of Housing Communities and Local Govt (MHCLG)	(2,321)	(38,796)
Norfolk County Council	(1,512)	(508)
Sport England	-	(15)
Historic England	(29)	-
Other Grants & Contributions	(212)	(458)
Total	(5,082)	(41,401)
Total Revenue Grants Received	(15,942)	(52,168)

The Council has received a number of grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned to the giver. The balances at the year-end are as follows:

	2022/23	2021/22
	£000	£000
Capital Grant Receipts in Advance		
Disabled Facilities Grant	(1,270)	(1,315)
Cromer West Prom	(50)	(50)
North Walsham HAZ	-	(959)
Mundesley cd refurbishment	(165)	-
Cromer CP scheme 982	(158)	-
Coastwise Grant	(996)	-
Climate Change Coastal tool	(21)	-
Changing places toilets	(180)	-
DLUC - LAHF Fund	(374)	-
	(3,214)	(2,324)

39. Financial Instruments

The following categories of financial instruments are carried in the Balance Sheet:

Financial Liabilities	31 March 2023		31 March 2022	
	Long Term £000	Current £000	Long Term £000	Current £000
Loans – Principal sum borrowed	-	(9,000)	-	(13,000)
Loans – Accrued interest	-	(53)	-	(2)
Total Borrowing	-	(9,053)	-	(13,002)
Bank Overdraft	-	(1,437)	-	(886)
Total Cash Overdrawn	-	(1,437)	-	(886)
Trade payables	-	(4,080)	-	(1,737)
Finance leases	-	-	-	-
Included in Creditors	-	(4,080)	-	(1,737)
Total Financial Liabilities	-	(14,570)	-	(15,625)

The debtors and creditors lines on the Balance Sheet include £5,846k short term debtors and £9,334k short term creditors that do not meet the definition of a financial instrument as they are non-exchange transactions.

Financial Assets	31 March 2023		31 March 2022	
	Long Term £000	Current £000	Long Term £000	Current £000
Investments at fair value through profit & loss:				
Accrued interest	-	48	-	-
Fair value	22,575	-	34,695	-
Total Investments	22,575	48	34,695	-
Fair value	-	2,854	-	10,989
Total Cash & Cash Equivalents	-	2,854	-	10,989
Trade receivables	-	4,833	-	2,169
Loans made for service purposes	2,042	-	2,462	140
Included in Debtors	2,042	4,833	2,462	2,309
Total Financial Assets	24,617	7,735	37,157	13,298

Offsetting Financial Assets and Liabilities

Financial assets and liabilities are offset against each other where the Council has a legally enforceable right to offset and it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. The table below shows those instruments that have been offset on the balance sheet. The Council had no other financial assets or liabilities subject to an enforceable master netting arrangement or similar agreement.

	31 March 2023			31 March 2022		
	Assets £000	Liabilities £000	Net balance sheet position £000	Assets £000	Liabilities £000	Net balance sheet position £000
Financial Assets						
Bank accounts in hand	117	(117)	-	10,184	(10,184)	-
Financial liabilities						
Bank overdrafts	117	(1,554)	(1,437)	10,184	(11,070)	(886)

Income, Expense, Gains and Losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments consist of the following:

	2022/23				2021/22
	Financial liabilities	Financial Assets			
	Amortised Cost	Amortised Cost	Fair Value through Profit & Loss	Total	
	£000	£000	£000	£000	£000
Interest expense	166	-	-	166	8
Interest payable and similar charges	166	-	-	166	8
Interest income	-	(89)	(139)	(228)	(118)
Dividend income	-	-	(1,220)	(1,220)	(934)
Gains from changes in fair value	-	-	(124)	(124)	(2,717)
Losses from changes in fair value	-	-	-	-	-
Interest and investment income	-	(89)	(1,483)	(1,572)	(3,769)
Net impact on surplus/deficit on provision of services	166	(89)	(1,483)	(1,406)	(3,769)
Impact on other comprehensive income	-	-	-	-	-
Net (gain)/loss for the year	166	(89)	(1,483)	(1,406)	(3,761)

Fair values of Assets and Liabilities

Financial instruments, except those classified at amortised cost, are carried in the Balance Sheet at fair value. For most assets, including bonds, shares in money market funds and other pooled funds, the fair value is taken from the market price.

Financial instruments classified at amortised cost are carried in the Balance Sheet at amortised cost. Their fair values have been estimated by calculating the net present value of the remaining contractual cash flows at 31 March 2021. The fair value of short-term instruments, including trade payables and receivables, is assumed to approximate to the carrying amount given the low and stable interest rate environment.

Fair values are shown in the table below, split by their level in the fair value hierarchy:

- Level 1 – fair value is only derived from quoted prices in active markets for identical assets or liabilities, e.g. bond prices

NOTES TO THE FINANCIAL STATEMENTS

- Level 2 – fair value is calculated from inputs other than quoted prices that are observable for the asset or liability, e.g. interest rates or yields for similar instruments.
- Level 3 – fair value is determined using unobservable inputs, e.g. non-market data such as cash flow forecasts or estimated creditworthiness.

	Balance Sheet 31 March 2023 £000	Fair Value 31 March 2023 £000	Fair Value 31 March 2022 £000
Financial liabilities at amortised cost:			
Liabilities for which fair value is not disclosed	(23,250)	(23,250)	(15,625)

Total Financial Assets		38,184	38,184	50,455

40. Nature and Extent of Risks Arising From Financial Instruments

The Council complies with CIPFA's Code of Practice on Treasury Management and Prudential Code for Capital Finance in Local Authorities, both revised in December 2017.

To comply with the Treasury Management Code, the Council approves a Treasury Management Strategy before the commencement of each financial year which sets out the parameters for the management of risks associated with Financial Instruments. The Council also produces Treasury Management Practices specifying the practical arrangements to be followed to manage those risks.

The Treasury Management Strategy includes an Investment Strategy in compliance with Central Government's Investment Guidance to Local Authorities. The guidance defines a prudent investment policy as having the two objectives of security (protecting the capital sum from loss) and then liquidity (keeping adequate funds readily available for expenditure when needed). The Council's Treasury Management Strategy and its Treasury Management Practices seek to achieve a suitable balance between risk and return or cost.

The Council's activities expose it to a variety of financial risks:

- credit risk - the possibility that other parties might fail to pay amounts due to the Council
- liquidity risk - the possibility that the Council might not have funds available to meet its commitments to make payments
- market risk - the possibility that unplanned financial loss might arise for the Council as a result of changes in such measures as interest rates, market process etc.

Credit Risk - Treasury Investments

The Council manages this risk by ensuring that investments are placed with counterparties which have a high credit rating and for the maximum periods and amounts set out in the Treasury Management Strategy.

The security and liquidity of the funds invested are the primary objective of the Council's treasury management activities. The Council selects countries and the institutions within them as suitable counterparties for investment after analysis and careful monitoring of credit ratings and a range of economic indicators and financial information are taken into account.

The table below shows the credit criteria exposures of the Council's investment portfolio by credit rating.

Financial Instruments – Balances by credit risk:

Credit Rating	Long Term	Short Term	Long Term	Short Term
	31 March 2023	31 March 2023	31 March 2022	31 March 2022
	£000	£000	£000	£000
AAA	1,012	2,830	4,475	10,770
AA+	-	-	-	-
AA	-	-	1,474	-
AA-	-	-	-	-
A+	-	-	-	-
A	-	-	-	-
A-	-	-	-	-
Unrated	-	-	-	-
Total	1,012	2,830	5,949	10,770
Credit Risk not applicable	21,569	-	20,746	-
Total Investments	22,581	2,830	26,695	10,770

Credit risk is not applicable to shareholdings and pooled funds where the Council has no contractual right to receive any sum of money.

The Council has no historical experience of counterparty default, and the Council does not anticipate any losses from default in relation to any of its current investments. No credit limits were exceeded in the financial year.

None of the above were identified as past due during the year.

Loss allowances on treasury investments have been calculated by reference to historic default data. A delay in cash flows is assumed to arise in the event of a default. Investments are determined to have suffered a significant increase in credit risk where they have been downgraded by three or more credit rating notches or equivalent since initial recognition, unless they retain an investment grade credit rating. They are determined to be credit impaired when awarded a “D” credit rating or equivalent. At 31 March 2023, £0 (2022: £0) of loss allowances related to treasury investments.

Credit Risk – Loans

The Council's has an exposure to credit risk through a loan to a housing association. This is collateralised by charges secured on residential property which are owned by the housing association. The value of the collateral is greater than 110% of the carrying value of the loan. The Council assessed the credit quality of the housing association prior to advancing the loan and it was satisfactory. The Council managed the credit risk inherent in its loans for service purposes in line with its published Investment Strategy.

Loss allowances on loans for service purposes have been calculated by reference to indicative interest rates adjusted for current economic conditions. They are determined to have suffered a significant increase in credit risk where the counterparty has dropped by two or more rating notches, and the new rating is below investment grade. They are determined to be credit impaired when receiving a "D" indicative rating.

Financial Instruments – Loans:

Loan No.	Description	Exposure Type	Balance Sheet 31 March 2023 £000	Risk Exposure 31 March 2023 £000	Balance Sheet 31 March 2022 £000	Risk Exposure 31 March 2022 £000
LN0001	Broadland Housing Association	Loan at market rates	1,885	1,885	2,019	2,019
LN0002	Home for Wells	Loan at market rates	150	150	155	155
			2,035	2,035	2,174	2,174

Credit Risk - Receivables

In addition to treasury investments, the Council is exposed to credit risk from its customers. However, the Council has put in place appropriate debt recovery procedures to manage this risk and minimise any loss.

The age analysis of trade receivables which are past due date but are not impaired is shown below.

	31 March 2023 £000	31 March 2022 £000
Less than three months	17	3
Three months to one year	10	9
More than one year	29	7
	56	19

The Council has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. The Council has ready access to borrowing at favourable rates from the Public Works Loan Board and other local authorities, and at higher rates from banks and building societies.

There is no perceived risk that the Council will be unable to raise finance to meet its commitments. The Council does not currently have any long-term debt and therefore does not have any maturing liabilities for which funds would be required.

Time to Maturity Years	Liabilities	Assets	Net Assets	Liabilities	Assets	Net Assets
	31 March 2023 £000	31 March 2023 £000	31 March 2023 £000	31 March 2022 £000	31 March 2022 £000	31 March 2022 £000
Less than 10 years	(1,554)	2,830	1,276	(11,070)	10,770	(300)
Over 10 years	-	117	117	-	10,184	10,184
No fixed maturity	-	22,575	22,575	-	34,695	34,695
	(1,554)	25,522	23,968	(11,070)	55,649	44,579

Market risk

Interest rate risk

The Council is exposed to risk in terms of its exposure to interest rate movements on its investments and borrowing. Movements in interest rates have a complex impact on the Council. For instance, a rise in interest rates would have the following effect:

- Investments at variable rates – the interest income will rise.
- Investments at fixed rates – the fair value of the assets will fall.
- Borrowings at fixed rates – the fair value of the liabilities will fall
- Borrowings at variable rates – the interest expense will rise.

Investments measured at amortised cost and loans borrowed are not carried at fair value, so changes in their fair value will have no impact on the Comprehensive Income and Expenditure Statement. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services. Movements in fair value of fixed rate investments measured at fair value will be reflected in Other Comprehensive Income or the Surplus or Deficit on the Provision of Services as appropriate.

The Treasury Management Strategy aims to mitigate these risks by setting upper limits on its net exposures to fixed and variable interest rates. The money markets and interest rate forecasts are monitored to adjust exposures to fixed and variable rates appropriately. For example, during periods of falling interest rates fixed rate investments may be made for longer periods to secure better returns.

If interest rates had been 1% higher (with all other variables held constant) the financial effect would be £209k (£257k in 2021-22).

Price risk

The market prices of the Council's bond investments and its units in pooled funds are governed by prevailing interest rates and the price risk associated with these instruments is managed alongside interest rate risk. The Council invests in funds with underlying assets in property, equity and bonds. A 1% rise in interest rise will reduce the fair value of pooled funds that invest in bonds by £218k; a 5% fall in the price of equity would result in a £595k fall in fair value and a 5% fall in the price of property would result in a £321k fall. These changes would result in a charge to Profit and Loss but would currently be reversed out to the Pooled Fund Adjustment Account due to the Statutory Override in place. This is a time limited adjustment.

Foreign Exchange Risk

The Council has no financial assets or liabilities denominated in foreign currencies and therefore there is no exposure to loss arising from movements in exchange rates.

41. Going Concern

The accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2022-23 (the Code), which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector. The accounts have been prepared on the going concern basis.

In carrying out its assessment that this basis is appropriate, made for the going concern period to 31st October 2025, management of the Council have undertaken forecasting of both income and expenditure, the expected impact on reserves, and cashflow forecasting.

Our most recent year-end balances, as reported in these statements are as follows:

Date	General Fund	Earmarked reserves
31/03/24	£2.22m	£15.63m

Our cash flow forecasting and assessment of the adequacy of our liquidity position demonstrates positive cash balances throughout the going concern period, and no expectation of external borrowing (other than to support the capital programme or for short periods for cashflow purposes which are both consistent with our plans and normal practice).

The key assumptions within this forecast included;

- Assumptions around spending levels for both revenue and capital purposes;
- Assumptions around internally and locally driven income levels, such as car parking, planning fees and investment returns;

- A council tax increase of £4.95 for a Band D property for both the financial years 2022/23 and 2023/24 and council tax income included at the level calculated for the budget for each year.
- Business Rates income included at the level determined in the NNDR1 for both years.
- All known grant income included at the level notified to the Council.

The final Financial Settlement figures for both 2023/24 and 2024/25 were announced in good time to include in the final Budget reports to full Council each year. So all central government funding figures are now known.

Financial risk management is also routinely considered which is documented within the 2023/24 Cabinet budget papers for the Cabinet meeting on 6 February 2023, and within the 2024/25 Cabinet budget papers for the Cabinet meeting on 5 February 2024.

Looking to the future, the Council's cashflow forecast does identify a reduced balance of readily available cash by the Autumn 2024, if a similar level of income and expenditure is assumed for 2024/25 as we're receiving in 2023/24. However, this is because of prudent Treasury Management with the Council maintaining its internal borrowing position until such time as the interest rates stabilise, at which point a decision will be made to take some longer-term external borrowing to meet its funding requirement of the capital programme.

On this basis, the Council is satisfied that it can continue to operate without any financial difficulties, and it has a reasonable expectation that it will have adequate resources to continue in operational existence throughout the going concern period will be able to maintain the provision of its services. For this reason, alongside the statutory guidance, the Council continues to adopt the going concern basis in preparing these financial statements.

1. General

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the Billing Authority in relation to the collection from taxpayers of Council tax and National Non-Domestic Rates (NNDR) and its distribution to Local Government bodies and Central Government. The Collection Fund is consolidated with the other accounts of the billing authority for Balance Sheet purposes.

2. Income from Business Ratepayers

The Council collects NNDR from ratepayers based on local rateable values provided by the Valuation Office Agency, multiplied by a uniform Business Rate in the £ set nationally by Central Government. The total rateable value for the District was £89,059,924 on 31 March 2023 (£83,998,972 on 31 March 2022). The national multipliers for 2022/23 were 49.9p for qualifying Small Businesses (49.9p in 2021/22), and the standard multiplier was set at 51.2p for all other businesses (51.2p in 2021/22).

The net income from Business Rate payers was £23.877m (£18.887m in 2021/22) after £236,246 of transitional protection payments due to Central Government. The transitional protection scheme provided protection to ratepayers from large changes in their bills following revaluations of their business by phasing in changes gradually. This meant that a billing authority collected more or less rates than would otherwise be the case, and Government Regulations make provision for adjusting payments to be made to or from billing authorities.

3. Precepts and Demands

	Precept/Demand 2022/23 £000	Collection fund Surplus 2022/23 £000	Net Payment 2022/23 £000	Net Payment 2021/22 £000

Norfolk County Council	62,243	24	62,267	60,043
Norfolk Police & Crime Commissioner	11,817	5	11,822	11,334
	83,295	32	83,327	80,204

4. The Council Tax Base for 2022/23

Therefore each £1 of Council Tax set was calculated to produce income of £41,031 (£40,959 in 2021/22).

Valuation Band	Number of Chargeable Dwellings Adjusted for Discounts		Equivalent Number of Band D dwellings		Equivalent Number of Band D Dwellings adjusted for Non-Collection allowance	
	2022/23	2021/22	2022/23	2021/22	2022/23	2021/22
A	5,358	5,320	5,235	5,219	5,156	5,165
B	8,746	8,708	8,769	8,744	8,638	8,657
C	8,983	8,869	9,005	8,923	8,870	8,834
D	8,079	7,995	8,098	8,060	7,977	7,979
E	5,542	5,465	5,570	5,503	5,486	5,448
F	3,195	3,138	3,213	3,172	3,165	3,140
G	1,623	1,610	1,623	1,611	1,599	1,595
H	143	143	142	142	140	141
Total Tax Base	41,669	41,248	41,655	41,347	41,031	40,959

5. Band D Tax Rate

For 2022/23, the Council set a Council tax rate of £1,967.51 for a band D dwelling (£1,967.51 in 2021/22). This consisted of; £1,516.95 (£1,472.94 in 2021/22) for Norfolk County Council, £288.00 (£263.07 in 2021/22) for the Office of the Police & Crime Commissioner for Norfolk and £158.67 (£153.72 in 2021/22) for the District's requirements as the District Council Tax was frozen. The average amount of Parish Council Tax was £66.41 (£62.84 in 2021/22). The actual sums for Parish Council ranged from nil to £149.45 (£nil to £108.17 in 2021/22) were charged for parish and town council requirements.

The calculation of the District's Council tax is made by dividing its demand on the Collection Fund by the equivalent number of Band D dwellings in the area (the Tax Base). An adjustment is made to the Tax Base to take into account the anticipated non-collection of amounts due.

Discounts are given for empty and other properties, in respect of students, disabled people, single occupiers and those in receipt of support under the Local Council Tax Support Scheme. Since 2004/05 the Council has implemented the provisions of the Local Government Act 2003 and exercised its discretionary powers to reduce or eliminate discounts on certain empty properties and second homes. Further reforms in the Local Government Finance Act 2012 gave the Council new flexibilities to vary Council tax on second homes and empty dwellings, and to apply a premium on empty properties.

6. Balances

The total balance is attributed as follows:

Share of Balance	31 March 2023			31 March 2022
	Council Tax £000	Business Rates £000	Total £000	Total £000
North Norfolk District Council	2	2,445	2,447	3,098
Norfolk County Council	48	809	857	1,283
Norfolk Police & Crime Commissioner	2	-	2	722
Central Government	-	3,262	3,262	3,732
	52	6,516	6,568	8,836

7. Bad Debt Provisions

The Collection Fund account provides for bad debts on arrears based on historical experience of non-payment and the age of debt.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NORTH NORFOLK DISTRICT COUNCIL

Disclaimer of opinion

We were engaged to audit the financial statements of North Norfolk District Council ('the Council) for the year ended 31 March 2023. The financial statements comprise the:

- Council Movement in Reserves Statement,
- Council Comprehensive Income and Expenditure Statement,
- Council Balance Sheet,
- Council Cash Flow Statement,
- the related notes 1 to 41 including a summary of significant accounting policies and including the Expenditure and Funding Analysis,
- Collection Fund and the related notes 1 to 7.

The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets (November 2022).

We do not express an opinion on the accompanying financial statements of the Council. Because of the significance of the matter described in the basis for disclaimer of opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for disclaimer of opinion

The Accounts and Audit (Amendment) Regulations 2024 (Statutory Instrument 2024/907) which came into force on 30 September 2024 requires the accountability statements for this financial year to be approved not later than 13 December 2024.

The audit of the 2021/22 financial statements for North Norfolk District Council was not completed for the reasons set out in our opinion on those financial statements dated 10 December 2024.

In addition, the Council did not publish their draft 2022/23 Statement of Accounts until 25 October 2024, compared to the statutory publication deadline of 31 May 2023, which is referred to in the value for money section of our report.

This, combined with the backstop date and the wider requirements of the local audit system reset, we did not have the required resources available to complete the detailed audit procedures that would be needed to obtain sufficient appropriate audit evidence to issue an unmodified audit report on the 2022/23 Council financial statements before the 13 December 2024 backstop date.

Therefore, we are disclaiming our opinion on the financial statements.

Matters on which we report by exception

Notwithstanding our disclaimer of opinion on the financial statements we have nothing to report in respect of whether the annual governance statement is misleading or inconsistent with other information forthcoming from the audit, performed subject to the pervasive limitation described above, or our knowledge of the Council.

We report to you if:

- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014 (as amended)

- we make written recommendations to the audited body under Section 24 of the Local Audit and Accountability Act 2014 (as amended)
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014 (as amended)
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014 (as amended)
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014 (as amended)

We have nothing to report in these respects.

In respect of the following, we have matters to report by exception:

- we are not satisfied that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2023

On the basis of our work, having regard to the guidance issued by the Comptroller and Auditor General in November 2024, we have identified the following significant weakness in the Authority's arrangements for the year ended 31 March 2023.

Significant weaknesses in arrangements

Governance

Our judgement on the nature of the weakness identified:

In the 2022/23 financial year the Authority did not publish its statement of accounts by 31 May 2023 as required by the Accounts and Audit Regulations 2015. The unaudited statements were published on 25 October 2024. This is the second year in which the Authority has not met the publication date. The issues have been discussed by the Governance, Risk and Audit Committee where it was reported the delays were caused by staff shortages and the need to prioritise available resources on medium term financial planning. The capacity issues within the finance team and the implementation of a new finance system led to weaknesses in financial controls, including failure to complete key reconciliations, and resulted in a limited assurance grading in the Key Financial Controls report issued by Internal Audit.

The evidence on which our view is based is:

- Publication date of the 2021/22 and 2022/23 draft financial statements.
- Council committee papers from 7th March 2023 setting out continued delays and the Council's plans to catch up with the financial statements preparation and audit cycles.
- Head of Internal Audit Annual Report and Opinion 2022/23.

The impact on North Norfolk District Council:

Failure to strengthen key financial controls and improve the quality and timeliness of financial reporting will impact the Council's ability to meet its statutory financial reporting deadlines, make informed decisions and deploy resources sustainably.

The action North Norfolk District Council needs to take to address the weakness:

The Council needs to continue to re-assess roles, responsibilities and resource requirement for financial reporting, including an assessment of the support required from other functions within the organisation for the financial reporting function to meet its objectives and to restore timely financial reporting in accordance with the requirements of the Accounts and Audit (Amendment) Regulations 2024.

The issues above are evidence of weaknesses in proper arrangements for governance, including reliable and timely financial reporting that supports the delivery of strategic priorities.

Responsibility of the Chief Finance Officer

As explained more fully in the Statement of the Chief Finance Officer's Responsibilities set out on pages 14, the Chief Finance Officer is responsible for the preparation of the Statement of Accounts, which includes the financial statements in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 as amended by the Update to the Code and Specifications for Future Codes for Infrastructure Assets (November 2022), and for being satisfied that they give a true and fair view and for such internal control as the Chief Finance Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Chief Finance Officer is responsible for assessing the Council's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Council either intends to cease operations, or has no realistic alternative but to do so.

The Council is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the audit of the financial statements

Our responsibility is to conduct an audit of the Council's financial statements in accordance with International Standards on Auditing (UK) and to issue an auditor's report.

However, because of the matter described in the basis for disclaimer of opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are independent of the Council in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and the Code of Audit Practice 2024 and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Scope of the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We have undertaken our review in accordance with the Code of Audit Practice 2024, having regard to the guidance on the specified reporting criteria issued by the Comptroller and Auditor General in November 2024, as to whether North Norfolk District Council had proper arrangements for financial sustainability, governance and improving economy, efficiency and effectiveness. The Comptroller and Auditor General determined these criteria as those necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether North Norfolk District Council put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2023.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to form a view on whether, in all significant respects, North Norfolk District Council had put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 (as amended) to satisfy ourselves that the Authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

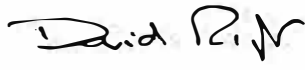

We are not required to consider, nor have we considered, whether all aspects of the Authority's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

Certificate

We certify that we have completed the audit of the accounts of North Norfolk District Council in accordance with the requirements of the Local Audit and Accountability Act 2014 (as amended) and the Code of Audit Practice issued by the National Audit Office.

Use of our report

This report is made solely to the members of North Norfolk District Council, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 (as amended) and for no other purpose, as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Council and the Council's members as a body, for our audit work, for this report, or for the opinions we have formed.

Footnote

The following footnote does not form part of our Auditor's Report.

Additional information related to the disclaimer of opinion is set out in our Completion Report for Those Charged with Governance dated 20 November 2024, available on the Authority's website, which includes further explanations about the implementation of the statutory instrument which led to the disclaimer of our opinion on the financial statements.

Glossary of Terms

Accruals

The accounting treatment that requires expenditure and income to be recognised in the period it is incurred or earned, not when the money is actually paid or received.

Amortisation

The process of spreading a cost to revenue over a number of years. For example Intangible Assets are amortised to revenue over their useful life.

Bad Debts

Amounts owed to the Council which are considered unlikely to be recovered. An allowance is made in the accounts for this possibility.

Balance Sheet

The Council's financial position at the year end. It summarises what the respective assets and liabilities are.

Business Rates

Business or National Non-Domestic Rates are collected from occupiers of business properties based upon a rateable value and a nationally set rate. They are collected by each authority and nationally determined proportionate shares are paid to the Government and Norfolk County Council with a share retained by the authority.

Capital Adjustment Account

An account which reflects the difference between the cost of fixed assets consumed and the capital financing set aside to pay for them. The balance represents the balance of capital resources set aside to finance capital expenditure (e.g. capital receipts, revenue contributions) awaiting consumption of resources e.g. from depreciation and impairment.

Capital Expenditure

Spending on the purchase or enhancement of significant assets which have an expected life of over a year - for example major improvements to the Council's housing or construction of a car park.

Capital Financing Requirement (CFR)

The Capital Financing Requirement represents the Council's underlying need to borrow for capital purposes.

Capital Receipts

Money received from the sale of assets. This can be used to finance capital expenditure or repay debt.

Collection Fund

The account which contains all the transactions relating to community charge, council tax and business rates together with the payments to this Council, Norfolk County Council and Norfolk Police Authority to meet their requirements.

Contingent Assets

A Contingent Assets is a possible asset that arises from past events and whose existence will only be confirmed by the occurrence of one or more uncertain future events not wholly within the Council's control.

Corporate and Democratic Core

Costs relating to the Council's status as a multi-functional, democratic organisation.

Contingent Liabilities

A Contingent Liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the Council's control.

Deferred Capital Receipts

Representing the amounts that are not available as cash. They arise from Council house sales on mortgage to the Council, and where repayments of principal sums due are received over a number of years.

Depreciation

A measure of the financial effect of wearing out, consumption or other reduction in the useful life of a fixed asset.

Earmarked Reserve

Amounts set aside for a specific purpose to meet future commitments or potential liabilities, for which it is not appropriate to establish provisions.

Financial Instruments

Any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another. The term covers both financial assets and financial liabilities. Examples of financial assets include bank deposits, equity instrument of another entity, e.g. shares, contractual right to receive cash or another financial asset from another entity, such as a trade receivable. Financial liabilities include for example, contractual obligations to deliver cash or another financial asset.

Fixed Assets

Representing, as fixed assets, the value of what the Council owns in terms of property, land etc. and what is owed to the Council in respect of debt.

General Fund

The account which summarises the revenue costs of providing services, which are met by the Council's demand on the Collection Fund.

Impairment

Reduction in the value of a fixed asset below its amount included in the Balance Sheet.

Infrastructure

A classification of fixed assets which have no market value and which exist primarily to facilitate transportation and communication requirements (e.g. roads, street lighting).

Intangible Assets

Intangible Assets are non-financial fixed assets that do not have a physical substance and include for example software licences.

International Accounting Standard 19 (IAS 19)

The requirement for Local Authorities to include the forecast cost of future pensions in the accounts on a notional basis.

International Financial Reporting Standards (IFRS)

A set of international accounting standards stating how particular types of transactions and other events should be reported in Financial Statements. IFRS are issued by the International Accounting Standards Board.

Large Scale Voluntary Transfer (LSVT)

The process of transferring Council House stock from a local Council to a Registered Social Landlord. North Norfolk District Council transferred its housing stock to North Norfolk Housing Trust in February 2006.

Leasing

A method of acquiring items such as vehicles and computer equipment by payment of a lease charge over a period of years. There are two types of lease.

A finance lease is where the Council effectively pays for the cost of an asset (it counts as Capital expenditure for control purposes and is included on our Balance Sheet). A primary lease period is that period for which the lease is originally taken out and a secondary period relates to any extension.

An operating lease (a long-term hire) is subject to strict criteria and the cost can be charged as a running expense. The item leased must be worth at least 10% of its original value at the end of the lease and does not appear on the Balance Sheet.

Liabilities

This shows what the Council owes for borrowing, payables etc. at the Balance Sheet date.

Minimum Revenue Provision

The minimum amount which must be charged to the revenue account each year and set aside as a provision to meet the rest of credit liabilities for example borrowing

National Non-Domestic Rate (NNDR)

NNDR is set by the Government and collected by each authority and nationally determined proportionate shares are paid to the Government and Norfolk County Council with a share retained by the Council.

Non Distributed Costs

The cost of discretionary benefits awarded to employees retiring early and any depreciation and impairment losses chargeable on non-operational properties.

Payables

Amounts which the Council owes to others for goods and services received before the year end of 31 March but which were not paid until after 1 April.

Precepts

The amount which the Norfolk County Council and Norfolk Police Authority require us to collect, as part of the Council tax, to pay for their services is called a precept. Town and Parish Councils also precept on the District Council to pay for their expenses.

Provisions

An amount set aside for potential liabilities which may arise or will be incurred, where there is uncertainty as to the amounts concerned or the dates on which these liabilities may arise.

Prudential Code

Professional code of practice developed by CIPFA which came into effect from the 1 April 2004 to ensure Local Authorities Capital investment plans are affordable, prudent and sustainable. 'The code allows authorities to undertake borrowing to finance capital expenditure as long as they can demonstrate affordability.'

Receivables

Sums which at the 31 March are owing to the Council.

Reserves

Accumulated balances built up from excess of income over expenditure or sums that have been specifically identified for a particular purpose which are known as earmarked reserves.

Revaluation Reserve

Net unrealised gains from the revaluation of fixed assets recognised in the balance sheet. Introduced in the 2007 SORP from 1 April 2007.

Revenue Contribution to Capital (or Direct Revenue Financing)

Use of revenue resources to finance capital expenditure.

Revenue Expenditure

The day to day running expenses on the services provided.

Revenue Expenditure Funded from Capital Under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of a fixed asset has been charged as expenditure to the relevant service revenue account in the year.

Revenue Income

Amounts receivable for such items as rents and charges for services and facilities.

Revenue Support Grant (RSG)

Grant paid by central government to aid Local Council services in general as opposed to specific grants which may only be used for a specific purpose.

Soft Loans

Loans which are made at less than market rates or interest free. A Council will sometimes make soft loans to achieve a policy or service objective. For example an interest free loan to a voluntary organisation to provide upfront funding or car loans to employees.

Support Services

Activities of a professional, technical and administrative nature which are not Local Authority services in their own right, but support main front-line services.

Temporary Loan

Money borrowed on a short-term basis as part of the overall borrowing strategy.

VAT Shelter

A procedure agreed by the MHCLG and HM Revenues and Customs to ensure that following a housing stock transfer there is no impact on taxation. Had the Council retained the housing stock and carried out the necessary works on the properties the VAT would have been reclaimed by the Council, however the Housing Trust are unable to recover the VAT and the VAT shelter arrangement allows the VAT to be recovered and shared between the Council and Victory Housing Trust.
