## Part A

### 1. The Licensing Objectives

- 1.1 In exercising most of their functions under the Gambling Act 2005 (hereafter referred to as the Act), licensing authorities must have regard to the licensing objectives as set out in Section 1 of the Act. The licensing objectives are:
- Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime
  - Ensuring that gambling is conducted in a fair and open way
  - Protecting children and other vulnerable persons from being harmed or exploited by gambling

It should be noted that the Gambling Commission has stated: "The requirement in relation to children is explicitly to protect them from being harmed or exploited by gambling".

- 1.2 North Norfolk District Council is aware that, as per Section 153 of the Act, in making decisions about premises licences and temporary use notices it should aim to permit the use of premises for gambling in so far as it thinks it:
- in accordance with any relevant code of practice issued by the Gambling Commission
  - in accordance with any relevant guidance issued by the Gambling Commission ([www.gamblingcommission.gov.uk/PDF/GLA5-updated-September-2016.pdf](http://www.gamblingcommission.gov.uk/PDF/GLA5-updated-September-2016.pdf))
  - reasonably consistent with the licensing objectives
  - in accordance with the Authority's Gambling Licensing Policy Statement of Principles

### 2. Introduction

- 2.1 North Norfolk District Council is situated in the County of Norfolk, which contains seven District Councils in total. The Council area has a population of approximately 105,000 covering an area of 400 square miles making it one of the smaller districts in Norfolk. The Council's area is mainly rural/coastal and has 5 market towns. Licences that can be issued under the Gambling Act 2005 in North Norfolk District Council's areas relate to, for example, betting shops, permitting gambling machines in licenced premises, family entertainment centres, adult gaming centres, bingo venues, and racetracks.
- 2.2 The mainstays of North Norfolk's economies are tourism, agriculture and service industries. The majority of these sectors have suffered decline in employment and are prone to cyclical and seasonal variations.
- 2.3 Licensing authorities are required by the Act to publish a statement of the principles which they propose to apply when exercising their functions. This statement must be published at least every three years. The statement must also be reviewed from "time to time" and any amended parts re-consulted upon. The statement must be then re-published. The Council's first gambling policy was adopted on 1st November 2006.

- 2.4 North Norfolk District Council will consult widely upon this statement of principles before finalising and publishing. A list of persons who have been consulted is provided in Annex 1.
- 2.5 The Act requires that the following parties are consulted by licensing authorities:
- The Chief Officer of Police
  - One or more persons who appear to the authority to represent the interests of persons carrying on gambling businesses in the authority's area
  - One or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority's functions under the Act

Our consultation took place between the 5 July 2018 and 3 September 2018 and followed HM Government Consultation Principles (published 2018), which is available at; [www.gov.uk/government/publications/consultationprinciples-guidance](http://www.gov.uk/government/publications/consultationprinciples-guidance)

- 2.6 The full list of any comments made and the consideration by the Council of those comments will be available by request to the Environmental and Leisure Business Support Manager at the Council.

The policy was originally approved at a meeting of the Full Council on 21 November 2018 and was published via the Council's website on 14 January 2019. Further reviews did not constitute material change and reflected style and reference changes.

- 2.7 Should you have any comments as regards this statement of principles please send them via email or letter to:

The Licensing Manager  
North Norfolk District Council  
Holt Road  
Cromer  
Norfolk  
NR27 9EN

[licensing@north-norfolk.gov.uk](mailto:licensing@north-norfolk.gov.uk)

- 2.8 It should be noted that this policy statement will not override the right of any person to make an application, make representations about an application, or apply for a review of a licence, as each will be considered on its own merits and according to the statutory requirements of the Act.

### 3. Declaration

In producing the final statement, North Norfolk District Council declares that it has had regard to the licensing objectives of the Act, the Guidance to local authorities issued by the Gambling Commission and any responses from those consulted on the statement.

### 4. Responsible Authorities

- 4.1 The licensing authority is required to state the principles it will apply in exercising its powers under Section 157(h) of the Act to designate, in writing, a body which is competent to advise the authority about the

protection of children from harm. The principles are:

- the need for the body to be responsible for an area covering the whole of the licensing authority's area
- the need for the body to be answerable to democratically elected persons, rather than any particular vested interest group

This Authority designates the Norfolk Local Safeguarding Children Board for this purpose; [www.norfolkscb.org](http://www.norfolkscb.org)  
The contact details of all the Responsible Authorities under the Act are attached at Annex 2.

## 5. Interested Parties

- 5.1 Interested parties can make representations about licence applications or apply for a review of an existing licence. These parties are defined in the Gambling Act 2005 as follows: "For the purposes of this Part a person is an interested party in relation to an application for or in respect of a premises licence if, in the opinion of the licensing authority which issues the licence or to which the applications is made, the person;
- a) lives sufficiently close to the premises to be likely to be affected by the authorised activities
  - b) has business interests that might be affected by the authorised activities
  - c) represents persons who satisfy paragraph (a) or (b)"
- 5.2 The licensing authority is required to state the principles it will apply in exercising its powers under the Act to determine whether a person is an interested party. The principles are:
- Each case will be decided upon its merits. This Authority will not apply a rigid rule to its decision making. It will consider the examples of considerations provided in the Gambling Commission's guidance for local authorities. It will also consider the Gambling Commission's guidance that "has business interests" should be given the widest possible interpretation and include partnerships, charities, faith groups and medical practices.
  - Interested parties can be persons who are democratically elected such as Councillors and MP's. No specific evidence of being asked to represent an interested person will be required if the Councillor/MP represents the wards likely to be affected. Likewise, Parish Councils likely to be affected will be considered to be interested parties. Other than these however, this Authority will generally require written evidence that a person/body (e.g. an advocate/relative) 'represents' someone who either lives sufficiently close to the premises to be likely to be affected and/or has business interests that might be affected by the authorised activities. A letter from one of these persons, requesting the representation is sufficient.
  - If individuals wish to approach Councillors to ask them to represent their views, then care should be taken that the Councillors are not part of the Licensing Committee dealing with the licence application. If there are any doubts, then please contact the Council's Public Protection Team.

## 6. Exchange of Information

- 6.1 Licensing authorities are required to include in their statements the

principles to be applied by the authority in exercising the functions under Sections 29 and 30 of the Act with respect to the exchange of information between it and the Gambling Commission and the functions under Section 350 of the Act with the respect to the exchange of information between it and the other persons listed in Schedule 6 to the Act.

- 6.2 The principle that North Norfolk District Council applies is that it will act in accordance with the provisions of the Act in its exchange of information which includes the provision that the Data Protection Act 2018 will not be contravened. The Licensing Authority will also have regard to any guidance issued by the Gambling Commission to local authorities on this matter, as well as any relevant regulations issued by the Secretary of State under the powers provided in the Act.

## 7. Enforcement

- 7.1 Licensing authorities are required by regulation under the Act to state the principles to be applied by the authority in exercising the functions under Part 15 of the Act with respect to the inspection of premises; and the powers under Section 346 of the Act to institute criminal proceedings in respect of the offences specified in section 346.
- 7.2 North Norfolk District Council's principles are it will be guided by the Gambling Commission's guidance for local authorities and will endeavour to be:
- Proportionate: regulators should only intervene when necessary: remedies should be appropriate to the risk posed and costs identified and minimised
  - Accountable: regulators must be able to justify decisions and be subject to public scrutiny
  - Consistent: rules and standards must be joined up and implemented fairly
  - Transparent: regulators should be open and keep regulations simple and user friendly
  - Targeted: regulations should be focused on the problem and minimise side effects
- 7.3 The Licensing Authority will endeavour to avoid duplication with other regulatory regimes so far as possible.
- 7.4 North Norfolk District Council inspection programme will be risk-based and take into account;
- The licensing objectives
  - Relevant codes of practice
  - Guidance issued by the Gambling Commission, in particular at Part 36
  - This statement of principles

The main enforcement and compliance role for North Norfolk District Council in terms of the Act is to ensure compliance with the premises licences and other permissions which it authorises. The Gambling Commission is the enforcement body for the operating and personal licences. It is also worth noting that concerns about manufacture, supply or repair of gaming machines and gambling software are not dealt with

by the Licensing Authority but should be notified to the Gambling Commission.

## 8. Licensing Authority Functions

Licensing authorities are required under the Act to:

- be responsible for the licensing of premises where gambling activities are to take place by issuing *Premises Licences*
- issue *Provisional Statements*
- regulate *members' clubs and miners' welfare institutes* who wish to undertake certain gaming activities via issuing Club Gaming Permits and/or Club Machine Permits
- issue *Club Machine Permits to Commercial Clubs*
- grant permits for the use of certain lower stake gaming machines at *unlicensed Family Entertainment Centres*
- receive notifications from alcohol licensed premises (under the Licensing Act 2003) for the use of two or fewer gaming machines
- issue *Licensed Premises Gaming Machine Permits* for premises licensed to sell/supply alcohol for consumption on the licensed premises, under the Licensing Act 2003, where there are more than two machines
- register *small society lotteries* below prescribed thresholds
- issue *Prize Gaming Permits*
- receive and Endorse *Temporary Use Notices*
- receive *Occasional Use Notices*
- provide information to the Gambling Commission regarding details of licences issued (see section above on 'information exchange')
- maintain registers of the permits and licences that are issued under these functions

It should be noted that Licensing Authorities are not involved in licensing remote gambling at all; this is regulated by the Gambling Commission via operating licences.

## Part B

## 9. Premises licences: consideration of applications

### 9.1 General Principles

Premises licences are subject to the requirements set-out in the Gambling Act 2005 and regulations, as well as specific mandatory and default conditions which are detailed in regulations issued by the Secretary of State. Licensing Authorities are able to exclude or amend default conditions and also attach others, where it is deemed to be appropriate to ensure licensing objectives are met.

### 9.2 Decision making

North Norfolk District Council is aware that in making decisions about premises licences it should aim to permit the use of premises for gambling in so far as it thinks it:

- in accordance with any relevant code of practice issued by the Gambling Commission
- in accordance with any relevant guidance issued by the Gambling Commission
- reasonably consistent with the licensing objectives
- in accordance with the authority's statement of licensing policy

It is appreciated that as per the Gambling Commission's Guidance for local authorities "moral objections to gambling are not a valid reason to reject applications for premises licences" (except as regards any 'no casino resolution' - see section on Casinos below - Paragraph 21) and also that unmet demand is not a criterion for a Licensing Authority.

### 9.3 Definition of "premises" and gaming machine categories

In the Act, "premises" is defined as including "any place". Section 152 prevents more than one premises licence applying to any place. But a single building could be subject to more than one premises licence, provided they are for different parts of the building and the different parts of the building can be reasonably regarded as being different premises. This approach has been taken to allow large, multiple unit premises such as a pleasure park, pier, track or shopping mall to obtain discrete premises licences, where appropriate safeguards are in place. However, the Licensing Authority shall pay particular attention if there are issues about sub-divisions of a single building or plot and shall ensure that mandatory conditions relating to access between premises are observed.

The Gambling Commission states in its guidance to licensing authorities that: "In most cases the expectation is that a single building/plot will be the subject of an application for a licence, for example, 32 High Street. But, that does not mean 32 High Street cannot be the subject of separate premises licences for the basement and ground floor, if they are configured acceptably. Whether different parts of a building can properly be regarded as being separate premises will depend on the circumstances. The location of the premises will clearly be an important consideration and the suitability of the division is likely to be a matter for discussion between the operator and the Licensing Officer. However, the Commission does not consider that areas of a building that are artificially or temporarily

separated, for example by ropes or moveable partitions, can properly be regarded as different premises.”

- 9.4 North Norfolk District Council takes particular note of the Gambling Commission’s Guidance to Licensing Authorities which states that: Licensing Authorities should take particular care in considering applications for multiple licences for a building and those relating to a discrete part of a building used for other (non-gambling) purposes. In particular, they should be aware of the following:
- The third licensing objective seeks to protect children from being harmed by gambling. In practice that means not only preventing them from taking part in gambling, but also preventing them from being in close proximity to gambling. Therefore, premises should be configured so that children are not invited to participate in, have accidental access to or closely observe gambling where they are prohibited from participating
  - Entrances to and exits from parts of a building covered by one or more premises licences should be separate and identifiable so that the separation of different premises is not compromised and people do not “drift” into a gambling area. In this context it should normally be possible to access the premises without going through another licensed premises or premises with a permit
  - Customers should be able to participate in the activity named on the premises licence

The guidance also gives a list of factors which the licensing authority should be aware of, which may include:

- Do the premises have a separate registration for business rates?
- Is the premises’ neighbouring premises owned by the same person or someone else?
- Can each of the premises be accessed from the street or a public passageway?
- Can the premises only be accessed from any other gambling premises?

This Authority will consider these and other relevant factors in making its decision, depending on all the circumstances of the case.

9.5 Gaming Machine Categories  
Gaming machine categories are available on the Gambling Commission’s website at: [www.gamblingcommission.gov.uk/licensees-and-businesses/guide/gaming-machine-categories](http://www.gamblingcommission.gov.uk/licensees-and-businesses/guide/gaming-machine-categories)

9.6 The Gambling Commission’s relevant access provisions for each premises type

- 9.6.1 Casinos
- The principal access entrance to the premises must be from a street
  - No entrance to a casino must be from premises that are used wholly or mainly by children and/or young persons
  - No customer must be able to enter a casino directly from any other premises which holds a gambling premises licence

9.6.2 Adult Gaming Centre

No customer must be able to access the premises directly from any other licensed gambling premises

- 9.6.3 Betting Shops
- Access must be from a street or from another premises with a betting premises licence
  - No direct access from a betting shop to another premises used for the retail sale of merchandise or services. In effect there cannot be an entrance to a betting shop from a shop of any kind and you could not have a betting shop at the back of a café – the whole area would have to be licensed.

- 9.6.4 Tracks
- No customer should be able to access the premises directly from:
    - a casino
    - an adult gaming centre

- 9.6.5 Bingo Premises
- No customer must be able to access the premise directly from:
    - a casino
    - an adult gaming centre
    - a betting premises, other than a track

- 9.6.6 Family Entertainment Centre
- No customer must be able to access the premises directly from:
    - a casino
    - an adult gaming centre
    - a betting premises, other than a track

The Gambling Commission’s guidance to licensing authorities contains further guidance on this issue, which this Authority will also take into account in its decision-making.

9.7 Location  
North Norfolk District Council is aware that demand issues cannot be considered with regard to the location of premises but that considerations in terms of the licensing objectives are relevant to its decision-making. As per the Gambling Commission’s guidance for local authorities, this Authority will pay particular attention to the protection of children and vulnerable persons from being harmed or exploited by gambling, as well as issues of crime and disorder.

9.8 Local Area Profiling  
The Social Responsibility Code, which is part of the Gambling Commissions, Licensing Conditions and Codes of Practice, most recently published in January 2018 (effective from 4 April 2018) requires licensees to assess the local risks to the licensing objectives posed by their gambling operations at each of their premises, and have policies, procedures and control measures to mitigate those risks. Additionally, applicants must undertake a local assessment when applying for a new or variation of a premises licence, to take account of significant changes in the local

circumstances or when there are significant changes at the licensee's premises.

Licensees should share their risk assessment with the Licensing Authority when applying for a premises licence or applying for a variation to existing licenced premises, or otherwise on request. The Licensing Authority is aware that there is no mandatory requirement to have a local area profile but recognises that one may offer a number of benefits. Should evidence be obtained to identify local risk areas then these will be reflected in a separate document and made available from the Public Protection Team and on the Council's website. Enquiries with relevant organisations have not revealed any data to suggest that there are any areas within the district that could be identified as a risk.

#### 9.9 Public Health and Gambling

The District Council will work with Norfolk County Council Public Health Team to support the national position of the Gambling Commission on the prevention of problem gambling 1, which the commission states should be a public health issue that is tackled in a comprehensive way alongside other public health issues like alcohol, drug misuse, or obesity, addressed by a range of organisations and agencies working co-operatively.

Public Health's role is to focus on the prevention of harm to vulnerable people within Norfolk, and any health harms that can be caused, or exacerbated by gambling. North Norfolk District Council, as the Local authority, welcomes the support and assistance from Norfolk County Council to residents based in North Norfolk to support a move towards the prevention of health harms for individuals and communities being considered in the Gambling licensing process.

Norfolk County Council should support North Norfolk District Council and the Statement of principles, and, where appropriate, a Local profile that identifies the wider health harms relating to gambling that includes mental health, housing, community welfare and debt. All these areas are connected to poor health outcomes, not only for an individual, but for the surrounding family and the community; [www.gamblingcommission.gov.uk/PDF/Gambling-related-harm-as-a-public-health-issue.pdf](http://www.gamblingcommission.gov.uk/PDF/Gambling-related-harm-as-a-public-health-issue.pdf)

#### 9.10 Planning Permission / Building Regulations

In determining applications, the Licensing Authority will take into consideration only matters that are related to gambling and the licensing objectives. An example would be: the likelihood of the applicant obtaining planning permission or building regulations approval for their proposal. The Licensing Authority is aware that a premises licence, once it comes into effect, authorises premises to be used for gambling.

#### 9.11 Duplication with other regulatory regimes

North Norfolk District Council seeks to avoid any duplication with other statutory/regulatory systems where possible, including planning as indicated above.

#### 9.12 Licensing objectives

Premises licences granted must be reasonably consistent with the licensing objectives. Regarding these objectives, North Norfolk District Council has considered the Gambling Commission's Guidance to local authorities

and some comments are made below.

9.12.1 Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime. North Norfolk District Council is aware that the Gambling Commission takes a leading role in preventing gambling from being a source of crime. The Gambling Commission's guidance does however envisage that Licensing Authorities should pay attention to the proposed location of gambling premises in terms of this licensing objective. Thus, where an area has known high levels of organised crime this authority will consider carefully whether gambling premises are suitable to be located there and whether conditions may be suitable, such as, the provision of door supervisors. North Norfolk District Council is aware of the distinction between disorder and nuisance and will consider factors (for example whether police assistance was required and how threatening the behaviour was to those who could see it) so as to make that distinction.

9.12.2 Ensuring that gambling is conducted in a fair and open way. This Licensing Authority has noted that the Gambling Commission states that it generally does not expect Licensing Authorities to be onerously concerned with ensuring that gambling is conducted in a fair and open way as this will be addressed via operating and personal licences. The only exception to this is for tracks, which is covered in paragraph 25 below.

9.12.3 Protecting children and other vulnerable persons from being harmed or exploited by gambling. North Norfolk District Council has noted the Gambling Commission's guidance for local authorities' states that this objective means preventing children from taking part in gambling (as well as restriction of advertising so that gambling products are not aimed at or are, particularly attractive to children). The Licensing Authority will therefore consider, as suggested in the Gambling Commission's guidance, whether specific measures are required at particular premises, with regard to this licensing objective. Appropriate measures may include supervision of entrances/machines, segregation of areas etc.

As regards the term "vulnerable persons" it is noted that the Gambling Commission does not seek to offer a definition but states that "it will for regulatory purposes assume that this group includes people who gamble more than they want to; people who gambling beyond their means; and people who may not be able to make informed or balanced decisions about gambling due to a mental impairment, alcohol or drugs". North Norfolk District Council will consider this licensing objective on a case-by-case basis.

#### 9.13 Conditions

Any conditions attached to licences will be proportionate and will be:

- relevant to the need to make the proposed building suitable as a gambling facility
- directly related to the premises and the type of licence applied for

- fairly and reasonably related to the scale and type of premises
- reasonable in all other respects

Decisions upon individual conditions will be made on a case-by-case basis, although there will be a number of measures North Norfolk District Council will consider utilising should there be a need to ensure the licensing objectives are met'. such as the use of supervisors, appropriate signage for adult only areas etc. There are specific comments made in this regard under some of the licence types below. North Norfolk District Council will also expect the licence applicant to offer his/her own suggestions as to ways in which the licensing objectives can be met effectively.

North Norfolk District Council will also consider specific measures which may be required for buildings which are subject to multiple premises licences. Such measures may include the supervision of entrances, segregation of gambling from non-gambling areas frequented by children; and the supervision of gaming machines in non-adult gambling specific premises in order to pursue the licensing objectives.

This Authority will ensure that where category C or above machines are on offer in premises to which children are admitted: all such machines are located in an area of the premises which is separated from the remainder of the premises by a physical barrier which

- is effective to prevent access other than through a designated entrance
- only adults are admitted to the area where these machines are located
- access to the area where the machines are located is supervised
- the area where these machines are located is arranged so that it can be
- observed by the staff or the licence holder
- at the entrance to and inside any such areas there are prominently displayed notices indicating that access to the area is prohibited to persons under 18

North Norfolk District Council is aware that tracks may be subject to one or more than one premises licence, provided each licence relates to a specified area of the track. As per the Gambling Commission's guidance, North Norfolk District Council will consider the impact upon the third licensing objective and the need to ensure that entrances to each type of premises are distinct and that children are excluded from gambling areas where they are not permitted to enter.

It is noted that there are conditions which the Licensing Authority cannot attach to premises licences which are:

- any condition on the premises licence which makes it impossible to comply with an operating licence condition
- conditions relating to gaming machine categories, numbers, or method of operation
- conditions which provide that membership of a club or body be required (the Gambling Act 2005 specifically removes the membership requirement for casino and bingo clubs and this provision prevents it being reinstated)

- conditions in relation to stakes, fees, winning or prizes, except entry fees for admission to a track

#### 9.14 Door Supervisors

If the Licensing Authority is concerned that a premises may attract disorder or be subject to attempts at unauthorised access (for example by children and young persons) then it may require that the entrances to the premises are controlled by a door supervisor, and is entitled to impose a condition on the premises licence to this effect.

#### 9.15 Adult Gaming Centres

North Norfolk District Council will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to, for example, ensure that under 18-year-olds do not have access to the premises.

North Norfolk District Council may consider measures to meet the licensing objectives such as:

- Proof of age schemes
- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self-exclusion schemes
- Provision of information leaflets/helpline numbers for organisations such as GamCare

This list is not mandatory or exhaustive and is merely indicative of example measures.

#### 9.16 (Licensed) Family Entertainment Centres

North Norfolk District Council will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority, for example, that there will be sufficient measures to ensure that under 18-year-olds do not have access to the adult only gaming machine areas.

North Norfolk District Council may consider measures to meet the licensing objectives such as:

- CCTV
- Supervision of entrances/machine areas
- Physical separation of areas
- Location of entry
- Notices/signage
- Specific opening hours
- Self-exclusion schemes
- Provision of information leaflets/helpline numbers for organisations such as GamCare
- Measures/training for staff on how to deal with suspected truant school children on the premises

This list is not mandatory or exhaustive and is merely indicative of example measures.

9.17 Casinos

There are currently no casinos operating within the District. The Licensing Authority has not passed a resolution under S166 of the Gambling Act 2005 not to issue casino premises licences. Any future decision to pass such a resolution will only be taken after a full consultation process has been undertaken and the statement of principles would be updated.

9.18 Bingo premises

Children and young people are allowed into bingo premises; however, they are not permitted to participate in the bingo and if category B or C machines are made available for use these must be separated from areas where children and young people are allowed.

9.19 Betting premises

A 'betting machine' is not a gaming machine and the Council is aware that it can attach a condition to restrict the number of betting machines. North Norfolk District Council will, as per the Gambling Commission's guidance, consider the size of the premises, the number of counter positions available for person-to-person transactions and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator wants to offer.

9.20 Tracks

North Norfolk District Council is aware that tracks may be subject to one or more than one premises licence, provided each licence relates to a specified area of the track.

This Authority expects the premises licence applicant to demonstrate suitable measures to ensure that children do not have access to adult only gaming facilities. It is noted that children and young persons will be permitted to enter track areas where facilities for betting are provided on days when dog-racing and/or horse racing takes place, but that they are still prevented from entering areas where gaming machines (other than category D machines) are provided.

North Norfolk District Council may consider measures to meet the licensing objectives such as:

- Proof of age schemes
- CCTV
- Supervision of entrances/machine areas
- Physical separation of areas
- Location of entry
- Notices/signage
- Specific opening hours
- Self-exclusion schemes
- Provision of information leaflets/helpline numbers for organisations such as Game Care

This list is not mandatory or exhaustive and is merely indicative of example measures.

9.21 Gaming machines – Where the applicant holds a pool betting operating licence and is going to use the entitlement to four gaming machines, machines (other than category D machines) should be located in areas from which children are excluded.

9.22 Betting machines – North Norfolk District Council will, as per the Gambling Commission's guidance, take into account the size of the premises and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator proposes to offer.

9.23 Applications and plans

Section 151 of the Act requires applicants to submit plans of the premises with their application, in order to ensure that the Licensing Authority has the necessary information to make an informed judgement about whether the premises are fit for gambling.

Plans for tracks do not need to be in a particular scale but should be drawn to scale and should be sufficiently detailed to include the information required by regulations.

Some tracks may be situated on agricultural land where the perimeter is not defined by virtue of an outer wall or fence, such as point-to-point racetracks. In such instances, where an entry fee is levied, track premises licence holders may erect temporary structures to restrict access to premises.

In the rare cases where the outer perimeter cannot be defined, it is likely that the track in question will not be specifically designed for the frequent holding of sporting events or races. In such cases betting facilities may be better provided through occasional use notices where the boundary premises do not need to be defined.

This Authority appreciates that it is sometimes difficult to define the precise location of betting areas on tracks. The precise location of where betting facilities are provided is not required to be shown on track plans, both by virtue of the fact that betting is permitted anywhere on the premises and because of the difficulties associated with pinpointing exact locations for some types of track. Applicants should provide sufficient information that this authority can satisfy itself that the plan indicates the main areas where betting might take place. For racecourses in particular, any betting areas subject to the "five times rule" (commonly known as betting rings) must be indicated on the plan. It is appreciated that racecourses may need the flexibility to provide different facilities on different days without the need to vary the licence and this will be reflected in the application process.

9.24 Travelling Fairs

North Norfolk District Council is responsible for deciding whether (where category D machines and/or equal chance prize gaming without a permit is to be made available for use at travelling fairs) the statutory requirement that the facilities for gambling amount to no more than an ancillary amusement at the fair is met and will also consider whether the applicant

falls within the statutory definition of a travelling fair

It is noted that the 27-day statutory maximum for the land being used as a fair applies on a per calendar year basis and that it applies to the piece of land on which the fairs are held, regardless of whether it is the same or different travelling fairs occupying the land. North Norfolk District Council will work with its neighbouring authorities to ensure that land which crosses our boundaries is monitored so that the statutory limits are not exceeded.

#### 9.25 Provisional Statements

Developers may wish to apply to this Authority for provisional statements before entering into a contract to buy or lease property or land to judge whether a development is worth taking forward in light of the need to obtain a premises licence. There is no need for the applicant to hold an operating licence in order to apply for a provisional statement.

Section 204 of the Gambling Act provides for a person to make an application to the licensing authority for a provisional statement in respect of premises that he or she:

- expects to be constructed
- expects to be altered
- expects to acquire a right to occupy

The process for considering an application for a provisional statement is the same as that for a premises licence application. The Applicant is obliged to give notice of the application in the same way as applying for a premises licence. Responsible authorities and interested parties may make representations and there are rights of appeal.

In contrast to the premises licence application, the Applicant does not have to hold or have applied for an operating licence from the Gambling Commission and they do not have to have a right to occupy the premises in respect of which their provisional application is made.

The holder of a provisional statement may then apply for a premises licence once the premises are constructed, altered or acquired. The Licensing Authority will be constrained in the matters it can consider when determining the premises licence application, and in terms of representations about premises licence applications that follow the grant of a provisional statement, no further representations from relevant authorities or interested parties can be taken into account unless:

- they concern matters which could not have been addressed at the provisional statement stage
- they reflect a change in the applicant's circumstances

In addition, the authority may refuse the premises licence (or grant it on terms different to those attached to the provisional statement) only by reference to matters:

- which could not have been raised by objectors at the provisional statement stage
- which in the authority's opinion reflect a change in the operator's circumstances
- where the premises has not been constructed in accordance with the plan submitted with the application. This must be a substantial change to the plan and North Norfolk District Council notes that it

can discuss any concerns it has with the Applicant before making a decision.

#### 9.26 Reviews

Requests for a review of a premises licence can be made by interested parties or responsible authorities; however, it is for the Licensing Authority to decide whether the review is to be carried-out. This will be based on whether the request for the review is relevant to the matters listed below:

- in accordance with any relevant code of practice issued by the Gambling Commission
- in accordance with any relevant guidance issued by the Gambling Commission
- reasonably consistent with the licensing objectives
- in accordance with the authority's statement of licensing policy

The request for the review will also be subject to the consideration by the authority as to whether the request is frivolous, vexatious, or whether it will certainly not cause this authority to wish to alter/revoke/suspend the licence, or whether it is substantially the same as previous representations or requests for review.

The Licensing Authority can also initiate a review of a particular premises licence, or a particular class of premises licence on the basis of any reason which it thinks is appropriate.

Once a valid application for a review has been received by the Licensing Authority, representations can be made by the licensee, responsible authorities and interested parties during a 28-day period. This period begins 7 days after the application was received by the licensing authority, who will publish notice of the application within 7 days of receipt and advertise it within 10 working days from the day after receipt

The Licensing Authority must carry out the review as soon as possible after the 28-day period for making representations has passed.

The purpose of the review will be to determine whether the licensing authority should take any action in relation to the licence. If action is justified, the options open to the licensing authority are:

- add, remove or amend a licence condition imposed by the licensing authority
- exclude a default condition imposed by the Secretary of State (e.g. opening hours) or remove or amend such an exclusion
- suspend the premises licence for a period not exceeding three months
- revoke the premises licence

In determining what action, if any, should be taken following a review, the Licensing Authority must have regard to the principles set out in Section 153 of the Act, as well as any relevant representations.

In particular, the Licensing Authority may also initiate a review of a premises licence on the grounds that a premises licence holder has not

provided facilities for gambling at the premises. This is to prevent people from applying for licences in a speculative manner without intending to use them.

Once the review has been completed, the Licensing Authority must, as soon as possible, notify its decision to:

- the licence holder
- the applicant for review (if any)
- the Commission
- any person who made representations
- the chief officer of police or chief constable
- Her Majesty's Commissioners for Revenue and Customs

## Part C

### 10. Permits: temporary and occasional use policy

- 10.1 Unlicensed Family Entertainment Centre gaming machine permits (Statement of Principles on Permits – Schedule 10 paragraph 7)

Where a premise does not hold a premises licence but wishes to provide gaming machines, it may apply to the Licensing Authority for this permit. It should be noted that the applicant must show that the premises will be wholly or mainly used for making gaming machines available for use (Section 238).

The Act states that a Licensing Authority may prepare a Statement of Principles that they propose to consider in determining the suitability of an applicant for a permit and in preparing this statement, and/or considering applications, it need not (but may) have regard to the licensing objectives and shall have regard to any relevant guidance issued by the Gambling Commission under Section 25 of the Act. It should be noted that a Licensing Authority cannot attach conditions to this type of permit.

North Norfolk District Council has adopted the following Statement of Principles, in respect of unlicensed FECs: The Licensing Authority will expect the applicant to show that there are policies and procedures in place to protect children from harm. Such policies/procedures will be considered on their merits; however, they may include appropriate measures on staff training about how to deal with suspected truancy, how to deal with unsupervised very young children being on the premises and children causing problems around the premises.

The Licensing Authority will also expect the applicants demonstrate a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed FECs, and that staff are trained to have a full understanding of the maximum stakes and prizes.

The Licensing Authority will require the following to be submitted in addition to the application form and fee:

- Proof of the applicant's identity and age
- Proof of the applicant's right to occupy the premises
- (Where the applicant is an individual) a Basic Disclosure Certificate (BDC) dated no earlier than one calendar month on the day the application is received by the licensing authority. Holders of operating licences issued by the Gambling Commission are exempt from this requirement
- An insurance certificate (or certified copy) confirming the availability of public liability insurance covering the proposed activity

A plan scale 1:100 of the premises showing:

- boundary of the premises including any internal and external walls, entrances, exits, doorways and windows, and indicating the points of access available to the public
- location of any fixed or temporary structures
- location of any counters, booths, offices or other locations from which staff may monitor the activities of persons on the premises

- location of any public toilets within the boundary of the premises
- location of CCTV cameras
- location of any ATM or other cash/change machines
- proposed location of the Category 'D' machines
- details of non-category 'D' machines (e.g. skill with prizes machines)

10.2 (Alcohol) Licensed premises gaming machine permits (Schedule 13 paragraph 4(1)) Automatic entitlement: 2 machines  
 There is provision in the Act for premises licensed to sell alcohol for consumption on the premises to automatically have 2 gaming machines, of categories C and/or D. The premises merely need to notify the Licensing Authority.

The Licensing Authority can remove the automatic authorisation in respect of any premises if:

- provision of the machines is not reasonably consistent with the pursuit of the licensing objectives
- gaming has taken place on the premises that breaches a condition of Section 282 of the Gambling Act (i.e. that written notice has been provided to the Licensing Authority, that a fee has been provided and that any relevant code of practice issued by the Gambling Commission about the location and operation of the machine has been complied with)
- the premises are mainly used for gaming an offence under the Gambling Act has been committed on the premises

#### 10.2.1 Permit: 3 or more machines

If a premises wishes to have more than 2 machines, then it needs to apply for a permit and the licensing authority must consider that application based upon the licensing objectives, any guidance issued by the Gambling Commission issued under Section 25 of the Gambling Act 2005, and 'such matters as they think relevant.'

North Norfolk District Council considers that 'such matters' will be decided on a case-by-case basis but generally there will be regard to the need to protect children and vulnerable persons from harmed or being exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to ensure that under 18-year-olds do not have access to the adult only gaming machines. Measures which will satisfy the authority that there will be no access may include the adult machines being in sight of the bar, or in the sight of staff that will monitor that the machines are not being used by those under 18.

Notices and signage may also be help. As regards the protection of vulnerable persons, applicants may wish to consider the provision of information leaflets/helpline numbers for organisations such as GamCare.

It should be noted that the Licensing Authority can decide to grant the application with a smaller number of machines and/or a different category of machines than that applied for. Conditions (other than these) cannot be attached.

It should also be noted that the holder of a permit must comply with any Code of Practice issued by the Gambling Commission about the location and operation of the machine.

#### 10.2.2 Prize Gaming Permits

The Act states that a licensing authority may "prepare a statement of principles that they propose to apply in exercising their functions under this Schedule" which "may, in particular, specify matters that the Licensing Authority proposes to consider in determining the suitability of the applicant for a permit".

North Norfolk District Council has prepared a Statement of Principles which is that the applicant should set out the types of gaming that he or she is intending to offer and that the applicant should be able to demonstrate:

- that they understand the limits to stakes and prizes that are set out in regulations
- that the gaming offered is within the law
- clear policies that outline the steps to be taken to protect children from harm

The Licensing Authority shall also require (where the applicant is an individual) a Basic Disclosure Certificate (BDC) dated no earlier than one calendar month on the day the application is received by the Licensing Authority. Holders of operating licences issued by the Gambling Commission are exempt from this requirement.

In making its decision on an application for this permit the Licensing Authority does not need to (but may) have regard to the licensing objectives but must have regard to any Gambling Commission guidance. (Gambling Act 2005, Schedule 14 paragraph 8(3)).

It should be noted that there are conditions in the Gambling Act 2005 by which the permit holder must comply, but that the Licensing Authority cannot attach conditions. The conditions in the Act are:

- the limits on participation fees, as set out in regulations, must be complied with
- all chances to participate in the gaming must be allocated on the premises on which the gaming is taking place and on one day; the game must be played and completed on the day the chances are allocated, and the result of the game must be made public in the premises on the day that it is played
- the prize for which the game is played must not exceed the amount set out in regulations (if a money prize), or the prescribed value (if non-monetary prize)
- participation in the gaming must not entitle the player to take part in any other gambling

#### 10.2.3 Club Gaming and Club Machines Permits

Members Clubs and Miners' welfare institutes (but not Commercial Clubs) may apply for a Club Gaming Permit or a Clubs Gaming machines permit. The Club Gaming Permit will enable the premises to provide gaming machines (3 machines of categories B, C or D), equal chance gaming and games of chance as set-out in

forthcoming regulations. A Club Gaming machine permit will enable the premises to provide gaming machines (3 machines of categories B, C or D).

Licensing authorities may only refuse an application on the grounds that:

- the applicant does not fulfil the requirements for a members' or commercial club or miners' welfare institute and therefore is not entitled to receive the type of permit for which it has applied
- the applicant's premises are used wholly or mainly by children and/or young persons
- an offence under the Act or a breach of a permit has been committed by the applicant while providing gaming facilities
- a permit held by the applicant has been cancelled in the previous ten years
- an objection has been lodged by the Gambling Commission or the police.

There is also a 'fast-track' procedure available under the Act for premises which hold a Club Premises Certificate under the Licensing Act 2003.

(Schedule 12 paragraph 10). As the Gambling Commission's Guidance for local authorities' states: "Under the fast-track procedure there is no opportunity for objections to be made by the Gambling Commission or the police, and the ground upon which an authority can refuse a permit are reduced" and "the grounds on which an application under the process may be refused are:

- that the club is established primarily for gaming, other than gaming of a prescribed nature
- that in addition to the prescribed gaming, the applicant provides facilities for other gaming
- that a club gaming permit or club machine permit issued to the applicant in the last ten years has been cancelled

There are statutory conditions on club gaming permits that no child uses a category B or C machine on the premises and that the holder complies with any relevant provision of a code of practice about the location and operation of gaming machines.

#### 10.2.4 Temporary Use Notices

Temporary use notices allow the use of premises for gambling where there is no premises licence but where a gambling operator wishes to use the premises temporarily for providing facilities for gambling. Premises that might be suitable for a temporary use notice, according to the Gambling Commission, would include hotels, conference centres and sporting venues.

The Licensing Authority can only grant a temporary use notice to a person or company holding a relevant operating licence, i.e. a non-remote casino operating licence.

A temporary use notice may be used to provide gambling for no more than 21 days in any 12-month period.

A temporary use notice must be submitted to the council at least 3 months and 1 day before the gambling event will begin.

The application must be copied to:

- the Gambling Commission,
- the chief officer of police for the area in which the premises are situated,
- HM Revenue and Customs, and
- if applicable, any other licensing authority in whose area the premises are also situated.

Gaming machines may not be made available under a temporary use notice.

#### 10.2.5 Occasional Use Notices

The Licensing Authority has little discretion as regards these notices aside from ensuring that the statutory limit of 8 days in a calendar year is not exceeded. An occasional use notice must be submitted for each day that betting activity will be conducted on the premises. If betting activity is to be held over a period of eight consecutive days, it will be necessary to submit eight separate notices.

### 10.3 Small Society Lotteries

The Licensing Authority will register and administer smaller non-commercial lotteries and applicants for lottery licences must apply to the licensing authority in the area where their principal office is located.

The Licensing Authority must be satisfied that the 'society' is established and conducted:

- for charitable purposes (as defined in S2 of the Charities Act 2006);
- for the purpose of enabling participation in, or of supporting, sport, athletics or a cultural nature activity; or
- for any other non-commercial purpose other than private gain.

In determining whether the Society is non-commercial the Licensing Authority may require applicants to provide copies of the society's constitution or terms of reference.

For new applications, the Licensing Authority shall require the promoter of the lottery to produce a Basic Disclosure and Barring Service Certificate (DBS) dated no earlier than one calendar month on the day the application is received by the Licensing Authority.

The total value of tickets to be put on sale per single lottery must be £20,000 or less, or the aggregate value of tickets to be put on sale for all their lotteries in a calendar year must not exceed £250,000.

If the operator plans to exceed either of these values, then they must be licensed by the Gambling Commission, as a large lottery and cannot receive a small society lottery licence from North Norfolk District Council.

The Licensing Authority may refuse an application for registration if in its opinion:

- The applicant is not a non-commercial society
- A person who will or may be connected with the promotion of the lottery has been convicted of a relevant offence
- Information provided in or with the application for registration is false or misleading

Where the Licensing Authority intends to refuse registration of a Society, it will give the society an opportunity to make representations and will inform the society of the reasons for refusal and supply evidence on which it has reached that preliminary conclusion. The Licensing Authority will make available on its website its procedures on how it handles representations.

The Licensing Authority may revoke the registered status of a society if it thinks that they would have had to, or would be entitled to, refuse an application for registration if it were being made at that time. However, no revocations will take place unless the society has been given the opportunity to make representations. The Licensing Authority will inform the society of the reasons for revocation and will provide an outline of the evidence on which it has reached that preliminary conclusion.

## Part D

### 11. Committee, officer delegation and contacts

- 11.1 Committee decisions and scheme of delegation  
The Licensing Authority is involved in a wide range of licensing decisions and functions and has established a Licensing Committee to administer them.

Licensing Sub-Committee is made up of three councillors from the main Licensing Committee who will hear applications where representations have been received from interested parties and responsible authorities. Ward Councillors will not sit on a Sub-Committee involving an application within their ward.

Where a councillor who is a member of the Licensing Committee is making or has made representations regarding a licence on behalf of an interested party, in the interests of good governance they will disqualify themselves from any involvement in the decision-making process affecting the licence in question.

The Council's licensing officers will deal with all other licensing applications where either no representations have been received, or where representations have been received and it is agreed by the parties that a hearing is not necessary.

Decisions as to whether representations are irrelevant, frivolous or vexatious will be made by Council officers, who will make the decisions on whether representations or applications for licence reviews should be referred to the Licensing Sub-Committee. Where representations are rejected, the person making that representation will be given written reason as to why that is the case. There is no right of appeal against determination that representations are not admissible.

The table shown at Annex 2 sets out the agreed delegation of decisions and functions to Licensing Committee, Sub-Committee and officers.

This form of delegation is without prejudice to officers referring an application to a sub-committee or full committee if considered appropriate in the circumstances of any particular case.
